

Taiwan Cooperative Bank, Ltd.

**Financial Statements for the
Years Ended December 31, 2022 and 2021 and
Independent Auditors' Report**

INDEPENDENT AUDITORS' REPORT

The Board of Directors and Stockholder
Taiwan Cooperative Bank, Ltd.

Opinion

We have audited the accompanying financial statements of Taiwan Cooperative Bank, Ltd. (the "Bank"), which comprise the balance sheets as of December 31, 2022 and 2021, the statements of comprehensive income, changes in equity and cash flows for the years then ended, and the notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Bank as of December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Public Banks and Regulations Governing the Preparation of Financial Reports by Securities Firms.

Basis for Opinion

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and the Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Bank in accordance with The Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the Bank for the year ended December 31, 2022. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matters in our audit of the financial statements for the year ended December 31, 2022 were as follows:

Impairment Assessment of Loans

The net discounts and loans of the Bank as of December 31, 2022 accounted for 61% of the total assets. Therefore, the assessment of the impairment loss of discounts and loans may have significant impacts on the financial statements. Besides assessing expected credit losses of loans in accordance with IFRS 9 “Financial Instruments”, the management of the Bank complies with the “Regulations Governing the Procedures for Banking Institutions to Evaluate Assets and Deal with Non-performing/Non-accrual Loans” and the related regulations (collectively, the Regulations) when assessing classification of credit assess and recognizing allowance for possible losses.

For the accounting policies and critical accounting judgments and estimates regarding the Bank’s impairment assessment of loans, refer to Notes 4 and 5 to the financial statements; for the relevant information on the impairment assessment of loans, refer to Note 13 to the financial statements.

When assessing whether to recognize impairment loss on loans in accordance with the Regulations, the main judgment of the management of the Bank is the assessment of possible loss of the credit assets, including whether the credit assets are classified based on the length of time the loans have been overdue and the value of the collateral. Since the amount of impairment assessed under the Regulations is much greater than the amount estimated under IFRS 9 “Financial Instruments”, the assessment involves many significant judgments and estimates and the amount is material to the financial statements; therefore, impairment of loans was identified as a key audit matter.

With respect to the critical judgments, estimates, and assumptions used in the assessment of impairment loss, the main audit procedures we performed were as follows:

1. We obtained an understanding of the design of the Bank’s relevant internal controls on the impairment assessment of loans.
2. We tested and confirmed that credit assets were classified and evaluated for impairment in accordance with the Regulations, which considered of the length of time the loans had been overdue and the value of the collaterals in calculating the provision for impairment loss.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Public Banks and the Regulations Governing the Preparation of Financial Reports by Securities Firms, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Bank’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including supervisors, are responsible for overseeing the Bank’s financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Bank to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient and appropriate audit evidence regarding the financial information of the components of the Bank to express an opinion on the financial statements. We are responsible for the direction, supervision, and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

From the matters communicated with those charged with governance, we determine those matters that were of the most significance in the audit of the financial statements for the year ended December 31, 2022 and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are Yin-Chou Chen and Tza-Li Gung.

TAIWAN COOPERATIVE BANK, LTD.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2022 AND 2021

(In Thousands of New Taiwan Dollars, Unless Stated Otherwise)

1. ORGANIZATION AND OPERATIONS

Taiwan Cooperative Bank, Ltd. (the “Bank”) was officially established on October 5, 1946 to regulate the supply of and demand for funds for cooperative organizations by accepting their surplus funds as deposits and extending working funds to them. On February 10, 2006, the Bank changed its Chinese name upon approval by the Ministry of Economic Affairs. However, the Bank’s English name remains unchanged. The Bank became a legal entity in 1985 in accordance with the Banking Law. At the start of 2001, the Bank was converted into a corporate entity engaged in (a) all commercial banking operations allowed under the Banking Law; (b) international banking operations; (c) overseas branch operations as authorized by the respective foreign governments; and (d) other operations as authorized by the central authority-in-charge.

The Bank’s shares have been listed on the Taiwan Stock Exchange since November 17, 2004.

The Bank merged with the Farmers Bank of China (FBC) on May 1, 2006, with the Bank as the survivor entity.

On June 24, 2011, the Bank’s stockholders approved the establishment of Taiwan Cooperative Financial Holding Company, Ltd. (TCFHC) by swapping the Bank’s shares with those Co-operative Asset Management Co., Ltd. (CAM) and Taiwan Cooperative Bills Finance Corporation Ltd. (TCBF) in accordance with the “Financial Holding Company Act” and other regulations. The boards of directors of the Bank, CAM and TCBF designated December 1, 2011 as the effective date of the share swap. After the shares transfer, the Bank became a 100% subsidiary of TCFHC. Also on December 1, 2011, the trading of the Bank’s stock on the Taiwan Stock Exchange (TSE) was stopped, and TCFHC’s stock started to be traded on the TSE.

On December 2, 2011, the Bank reduced its capital by NT\$3 billion and spun off its Security Department to incorporate Taiwan Cooperative Securities Corp. (TCS), which became a 100% subsidiary of TCFHC.

In order to integrate resources and enhance operating effectiveness, the board of directors of the Bank and Cooperative Insurance Brokers Co., Ltd. (CIB) decided to merge the Bank and CIB on April 25, 2016. The effective date of the merger was June 24, 2016. In this merger, the Bank was the surviving entity.

The Bank has its Head Office in Taipei. It had a Business, International Banking, Finance, Credit Card, Trust and Insurance Agent Departments as well as 269 domestic branches, 1 offshore banking unit (OBU), 14 overseas branches, 8 overseas sub-branches and 3 representative offices as of December 31, 2022.

The operations of the Bank’s Trust Department are (1) planning, managing and operating the trust business and (2) custodianship of nondiscretionary trust fund in domestic and overseas securities and mutual funds. These operations are regulated under the Banking Law and Trust Law of the Republic of China (ROC).

As of December 31, 2022 and 2021, the Bank had 8,794 and 8,706 employees, respectively.

The operating units of the Bank maintain their accounts in their respective functional currencies. The financial statements are presented in New Taiwan dollars.

2. APPROVAL OF FINANCIAL STATEMENTS

The financial statements were approved by the Bank's board of directors on March 13, 2023.

3. APPLICATION OF NEW, AMENDED AND REVISED STANDARDS AND INTERPRETATIONS

- a. Effects of initial application of the amendments to the International Financial Reporting Standards (IFRS), International Accounting Standards (IAS), IFRIC Interpretations (IFRIC), and SIC Interpretations (SIC) (collectively, the "IFRSs") endorsed and issued into effect by the Financial Supervisory Commission (FSC)

The initial application of the IFRSs endorsed and issued into effect by the FSC did not have material impact on the Bank's accounting policies.

- b. Impact of IFRS endorsed by the FSC for application starting from 2023, but not yet applied by the Bank

New IFRSs	Effective Date Announced by IASB
Amendments to IAS 1 "Disclosure of Accounting Policies"	January 1, 2023 (Note 1)
Amendments to IAS 8 "Definition of Accounting Estimates"	January 1, 2023 (Note 2)
Amendments to IAS 12 "Deferred Tax related to Assets and Liabilities arising from a Single Transaction"	January 1, 2023 (Note 3)

Note 1: The amendments will be applied prospectively for annual reporting periods beginning on or after January 1, 2023.

Note 2: The amendments are applicable to changes in accounting estimates and changes in accounting policies that occur on or after the beginning of the annual reporting period beginning on or after January 1, 2023.

Note 3: Except for deferred taxes that were recognized on January 1, 2022 for temporary differences associated with leases and decommissioning obligations, the amendments were applied prospectively to transactions that occurred on or after January 1, 2022.

As of the date the financial statements were authorized for issue, the Bank assessed that the above amendments have no significant impact on the Bank. The Bank is continuously assessing the possible impact of the application of other standards and interpretations on the Bank's financial position and financial performance and will disclose the relevant impact when the assessment is completed.

- c. Impact of the new IFRS announced by IASB but not yet endorsed and issued into effect by the FSC and not yet applied by the Bank

New IFRSs	Effective Date Announced by IASB (Note 1)
Amendments to IFRS 10 and IAS 28 “Sale or Contribution of Assets between an Investor and its Associate or Joint Venture”	To be determined by IASB
Amendments to IFRS 16 “Leases Liability in a Sale and Leaseback”	January 1, 2024 (Note 2)
IFRS 17 “Insurance Contracts”	January 1, 2023
Amendments to IFRS 17	January 1, 2023
Amendments to IFRS 17 “Initial Application of IFRS 9 and IFRS 17 - Comparative Information”	January 1, 2023
Amendments to IAS 1 “Classification of Liabilities as Current or Non-current”	January 1, 2024
Amendments to IAS 1 “Non-current Liabilities with Covenants”	January 1, 2024

Note 1: Unless stated otherwise, the above New IFRSs are effective for annual reporting periods beginning on or after their respective effective dates.

Note 2: A seller-lessee shall apply the Amendments to IFRS 16 retrospectively to sale and leaseback transactions entered into after the date of initial application of IFRS 16.

As of the date the financial statements were authorized for issue, the Bank assessed that the above amendments have no significant impact on the Bank. The Bank is continuously assessing the possible impact that the application of other standards and interpretations will have on the Bank’s financial position and financial performance and will disclose the relevant impact when the assessment is completed.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Statement of Compliance

The financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Public Banks and Regulations Governing the Preparation of Financial Reports by Securities Firms.

Basis of Preparation

The financial statements have been prepared on the historical cost basis except for financial instruments that are measured at fair value and net defined benefit liabilities which are measured at the present value of the defined benefit obligation less the fair value of plan assets.

The fair value measurements are grouped into Levels 1 to 3 based on the degree to which the fair value measurement inputs are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- a. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities;
- b. Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and
- c. Level 3 inputs are unobservable inputs for the asset or liability.

When preparing its financial statements, the Bank used equity method to account for its investment in subsidiary, associates and joint ventures. In order for the amounts of the net profit for the year, other comprehensive income for the year and total equity in the parent company only financial statements to be the same with the amounts attributable to the owner of the Bank in its consolidated financial statements, adjustments arising from the differences in accounting treatment between the parent company only basis and the consolidated basis were made to investments accounted for using equity method, share of profit or loss of subsidiary, associates and joint ventures, share of other comprehensive income of subsidiary, associates and joint ventures and related equity items, as appropriate, in the parent company only financial statements.

The financial statements also include accounts of the Bank's Head Office, OBU, and all branches. All interoffice account balances and transactions have been eliminated.

Foreign-currency Transactions

The Bank records foreign-currency transactions in the respective currencies in which these are denominated. Foreign currency income and expenses are translated at the transaction date exchange rates. At month-end, monetary assets and liabilities denominated in foreign currencies are reported using the prevailing exchange rates, and exchange differences are recognized in profit or loss. Nonmonetary assets and liabilities measured at fair value are translated using the prevailing exchange rates at month-end. Translation differences on nonmonetary assets and liabilities measured at fair value are recognized in profit or loss, except for translation difference arising from nonmonetary items of which the change in fair values is recognized in other comprehensive income, in which case, the translation differences are also recognized directly in other comprehensive income. Nonmonetary assets and liabilities that are classified as carried at cost are recognized at the exchange rate on the transaction date.

In preparing the financial statements, foreign operations' financial statements are translated at the following rates: Assets and liabilities - the prevailing exchange rates on the balance sheet date; and income and expenses - at the average exchange rate for the year. Translation difference net of income tax is recorded as "other comprehensive income" and accumulated in equity.

Classification of Current and Noncurrent Assets and Liabilities

Since the operating cycle in the banking industry cannot be reasonably identified, accounts included in the Bank's financial statements are not classified as current or noncurrent. Nevertheless, these accounts are properly categorized in accordance with the nature of each account and sequenced by liquidity.

Cash and Cash Equivalents

In the balance sheet, cash and cash equivalents comprise cash on hand and demand deposits, together with short-term, highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value. In the statement of cash flows, cash and cash equivalents comprise cash and cash equivalents defined in the balance sheet, due from the Central Bank and call loans to other banks, securities purchased under resell agreements, and call loans to securities firms that correspond to the definition of cash and cash equivalents in IAS 7 "Cash Flow Statements," as endorsed by the FSC.

Financial Instruments

Financial assets and financial liabilities are recognized when the Bank becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognized immediately in profit or loss.

Financial assets

All regular way purchases or sales of financial assets are recognized and derecognized on a trade date basis.

a. Measurement category

Financial assets are classified into the following categories: Financial assets at fair value through profit or loss (FVTPL), financial assets at amortized cost, investments in debt instruments at fair value through other comprehensive income (FVTOCI) and equity instruments at FVTOCI.

1) Financial asset at FVTPL

Financial asset is classified as at FVTPL when the financial asset is mandatorily classified or it is designated as at FVTPL.

Financial assets mandatorily classified as at FVTPL include investments in equity instruments which are not designated as at FVTOCI and debt instruments that do not meet the amortized cost criteria or the FVTOCI criteria.

A financial asset may be designated as at FVTPL upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise.

Financial assets at FVTPL are subsequently measured at fair value, with any gains or losses arising on remeasurement recognized in profit or loss. The net gain or loss recognized in profit or loss incorporates any dividend or interest earned on the financial asset. Fair value is determined in the manner described in Note 41.

2) Financial assets at amortized cost

Financial assets that meet the following conditions are subsequently measured at amortized cost:

- a) The financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- b) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Subsequent to initial recognition, financial assets at amortized cost, including cash and cash equivalents, due from the Central Bank and call loans to other bank, call loans to securities firms, receivables and discounts and debt instruments are measured at amortized cost, which equals to gross carrying amount determined by the effective interest method less any impairment loss. Exchange differences are recognized in profit or loss.

Interest revenue is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for:

- a) Purchased or originated credit-impaired financial asset, for which interest revenue is calculated by applying the credit-adjusted effective interest rate to the amortized cost of the financial asset; and
- b) Financial asset that has subsequently become credit-impaired, for which interest revenue is calculated by applying the effective interest rate to the amortized cost of the financial asset.

A financial asset is credit impaired when one or more of the following events have occurred:

- i. Significant financial difficulty of the issuer or the borrower;
- ii. Breach of contract, such as a default;
- iii. It is becoming probable that the borrower will enter bankruptcy or undergo a financial reorganization; or
- iv. The disappearance of an active market for that financial asset because of financial difficulties.

3) Investments in debt instruments at FVTOCI

Debt instruments that meet the following conditions are subsequently measured at FVTOCI:

- a) The financial asset is held within a business model whose objective is achieved by both the collecting of contractual cash flows and the selling of the financial assets; and
- b) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Investments in debt instruments at FVTOCI are subsequently measured at fair value. Changes in the carrying amounts of these debt instruments relating to changes in foreign currency exchange rates, interest income calculated using the effective interest method and impairment losses or reversals are recognized in profit or loss. Other changes in the carrying amount of these debt instruments are recognized in other comprehensive income and will be reclassified to profit or loss when the investment is disposed of.

4) Investments in equity instruments at FVTOCI

On initial recognition, the Bank may make an irrevocable election to designate investments in equity instruments as at FVTOCI. Designation at FVTOCI is not permitted if the equity investment is held for trading or if it is contingent consideration recognized by an acquirer in a business combination.

Investments in equity instruments at FVTOCI are subsequently measured at fair value with gains and losses arising from changes in fair value recognized in other comprehensive income and accumulated in other equity. The cumulative gain or loss will not be reclassified to profit or loss on disposal of the equity investments, instead, they will be transferred to retained earnings.

Dividends on these investments in equity instruments are recognized in profit or loss when the Bank's right to receive the dividends is established, unless the dividends clearly represent a recovery of part of the cost of the investment.

b. Impairment of financial assets

The Bank recognizes a loss allowance for expected credit losses on financial assets at amortized cost (including loans and receivables), investments in debt instruments that are measured at FVTOCI, lease receivables, as well as contract assets.

The Bank always recognizes lifetime Expected Credit Loss for receivables (excluding receivables of credits and credit cards and accrued interest from debt instruments), and lease receivables. For all other financial instruments, the Bank recognizes lifetime ECL when there has been a significant increase in credit risk since initial recognition. If, on the other hand, the credit risk on the financial instrument has not increased significantly since initial recognition, the Bank measures the loss allowance for that financial instrument at an amount equal to 12-month ECL.

Expected credit losses reflect the weighted average of credit losses with the respective risks of a default occurring as the weights. Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

For internal credit risk management purposes, the Bank determines that the following situations indicate that a financial asset is in default (without taking into account any collateral held by the Bank):

- 1) Internal or external information show that the debtor is unlikely to pay its creditors.
- 2) When a financial asset is overdue for at least 90 days unless the Bank has reasonable and corroborative information to support a more lagged default criterion.

The Bank recognizes an impairment gain or loss in profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account, except for investments in debt instruments that are measured at FVTOCI, for which the loss allowance is recognized in other comprehensive income and does not reduce the carrying amount of the financial asset.

Under FSC guidelines, the Bank should classify credit assets as sound credit assets or unsound credit assets, with the unsound assets further categorized as special mention, substandard, with collectability highly doubtful and uncollectable, on the basis of the customers' financial position, valuation of collaterals and the length of time of the principal repayments or interest payments have become overdue.

The Bank made 100%, 50%, 10%, 2% and 1% provisions for credits deemed uncollectable, with collectability highly doubtful, substandard, special mention and sound credit assets (excluding assets that represent claims against an ROC government agency), respectively, as minimum provisions. In addition, the Bank was required to make provisions of at least 1.5% each for the sound credit assets on loans granted to Mainland China clients (including short-term trading financing) and for mortgage loans granted for housing acquisition, renovation and construction.

Credits deemed uncollectable may be written off if the write-off is approved by the board of directors.

c. Derecognition of financial assets

The Bank derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

If the Bank neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Bank recognizes its retained interest in the asset and any associated liability for amounts it may have to pay. If the Bank retains substantially all the risks and rewards of ownership of a transferred financial asset, the Bank continues to recognize the financial asset and also recognizes a collateralized borrowing for the proceeds received.

On derecognition of a financial asset at amortized cost in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognized in profit or loss. On derecognition of an investment in a debt instrument at FVTOCI, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognized in other comprehensive income is recognized in profit or loss. However, on derecognition of an investment in an equity instrument at FVTOCI, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognized in profit or loss, and the cumulative gain or loss that had been recognized in other comprehensive income is transferred directly to retained earnings, without recycling through profit or loss.

Equity instruments

The Bank classifies the debt and equity instruments issued either as financial liabilities or as equity in accordance with the substance of the contractual agreements and the definitions of a financial liability or an equity instrument.

Equity instruments issued by the Bank are recognized at the proceeds received, net of direct issue costs.

Repurchase of the Bank's own equity instruments is recognized and deducted directly in equity. The carrying amount should be calculated by type of stocks using the weighted-average method for the purpose of repurchased stock. No gain or loss is recognized in profit or loss on the purchase, sale, issue or cancellation of the Bank's own equity instruments.

Financial liabilities

a. Subsequent measurement

Except for the cases stated below, all financial liabilities are measured at amortized cost using the effective interest method:

1) Financial liabilities at FVTPL

Financial liabilities are classified as at FVTPL when the financial liability is either held for trading or designated as at FVTPL.

A financial liability is classified as designated as at FVTPL upon initial recognition if:

- a) Such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise; or
- b) The financial liability forms part of a group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Bank's documented risk management or investment strategy, and information about the grouping is provided internally on that basis; or
- c) The contract contains one or more embedded derivatives so that the entire combined contract (asset or liability) can be designated as at fair value through profit or loss.

Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognized in other profit or loss. The net gain or loss recognized in profit or loss incorporates any interest paid on the financial liability. For a financial liability designated as at fair value through profit or loss, the amount of changes in fair value attributable to changes in the credit risk of the liability is presented in other comprehensive income, and it will not be subsequently reclassified to profit or loss. The gain or loss accumulated in other comprehensive income will be transferred to retained earnings when the financial liabilities are derecognized. If this accounting treatment related to credit risk would create or enlarge an accounting mismatch, all changes in fair value of the liability are presented in profit or loss. Fair value is determined in the manner described in Note 41.

2) Financial guarantee contracts

The Bank measures financial guarantee contract issued at the higher of:

- a) The amount of the loss allowance determined in accordance with IFRS 9 endorsed by the FSC; and
- b) The amount initially recognized less, where appropriate, cumulative amount of income recognized in accordance with IFRS 15 endorsed by the FSC.

Besides subsequently measuring financial guarantee contracts at the higher of the abovementioned amounts as IFRS assessment result, assessment is also performed under the “Regulations Governing the Procedures for Banking Institutions to Evaluate Assets and Deal with Non-performing/Non-accrual Loans”, as regulatory assessment result. The higher adequacy provision between above IFRS and regulatory assessment results is recognized.

b. Derecognition of financial liabilities

The Bank derecognizes financial liabilities only when the Bank’s obligations are discharged or cancelled or expired. The difference between the carrying amount of the financial liability derecognized and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss.

Derivatives

Derivatives are initially recognized at fair value at the date the derivative contracts are entered into and are subsequently remeasured to their fair value at the balance sheet date. The resulting gain or loss is recognized in profit or loss immediately. If the fair value of a derivative is a positive number, the derivative is recognized as an asset and if the fair value is a negative number, the derivative is recognized as a liability.

Derivatives embedded in hybrid contracts that contain financial asset hosts within the scope of IFRS 9 are not separated; instead, the classification is determined in accordance with the entire hybrid contract. Derivatives embedded in non-derivative host contracts that are not financial assets within the scope of IFRS 9 (e.g. financial liabilities) are treated as separate derivatives when they meet the definition of a derivative, their risks and characteristics are not closely related to those of the host contracts and the host contracts are not measured at FVTPL.

Modification of financial instruments

For the changes in the basis for determining contractual cash flows resulting from the interest rate benchmark reform:

For the changes in the basis for determining contractual cash flows of financial assets or financial liabilities resulting from the interest rate benchmark reform, the Bank elects to apply the practical expedient in which the changes are accounted for by updating the effective interest rate at the time the basis is changed, provided the changes are necessary as a direct consequence of the reform and the new basis is economically equivalent to the previous basis.

Overdue Loans

Loans and other credits (including accrued interest) that are overdue for at least six months are classified as overdue loans in accordance with the guideline issued by the FSC.

Overdue loans (except other credits) are classified as discounts and loans, and the remaining are classified as other financial assets.

Securities Purchased/Sold Under Resell/Repurchase Agreements

Securities purchased under resell agreements and securities sold under repurchase agreements are generally treated as collateralized financing transactions. Interest earned on resell agreements or interest incurred on repurchase agreements is recognized as interest revenue or interest expense on an accrual basis.

Investments Accounted for Using Equity Method

Investments in subsidiaries, associates and joint ventures are accounted for by the equity method.

Investment in subsidiaries

Subsidiaries (including structured entities) are the entities controlled by the Bank.

Under the equity method, the investment is initially recognized at cost and the carrying amount is increased or decreased to recognize the Bank's share of the profit or loss and other comprehensive income of the subsidiary after the date of acquisition. Besides, the Bank also recognizes the Bank's share of the change in other equity of the subsidiary.

Changes in the Bank's ownership interests in subsidiaries that do not result in the Bank's loss of control over the subsidiaries are accounted for as equity transactions. Any difference between the carrying amounts of the investment and the fair value of the consideration paid or received is recognized directly in equity.

When the Bank's share of losses of a subsidiary equals or exceeds its interest in that subsidiary (which includes any carrying amount of the investment in subsidiary accounted for by the equity method and long-term interests that, in substance, form part of the Bank's net investment in the subsidiary), the Bank continues recognizing its share of further losses.

The acquisition cost in excess of the acquisition-date fair value of the identifiable net assets acquired is recognized as goodwill. Goodwill is not amortized. The acquisition-date fair value of the net identifiable assets acquired in excess of the acquisition cost is recognized immediately in profit or loss.

When the Bank ceases to have control over a subsidiary, any retained investment is measured at fair value at that date and the difference between the previous carrying amount of the subsidiary attributable to the retained interest and its fair value is included in the determination of the gain or loss. Furthermore, the Bank accounts for all amounts previously recognized in other comprehensive income in relation to that subsidiary on the same basis as would be required if the Bank had directly disposed of the related assets or liabilities.

Profits and losses from downstream transactions with a subsidiary are eliminated in full. Profits and losses from upstream transactions with a subsidiary and sidestream transactions between subsidiaries are recognized in the Bank's financial statements only to the extent of interests in the subsidiary that are not related to the Bank.

Investment in associates and joint ventures

An associate is an entity over which the Bank has significant influence and that is neither a subsidiary nor an interest in a joint venture. Joint venture is a joint arrangement whereby the Bank and other parties that have joint control of the arrangement have rights to the net assets of the arrangement.

The Bank uses the equity method to account for investments in associates and joint ventures. Under the equity method, investment in an associate or a joint ventures entity is initially recognized at cost and adjusted thereafter to recognize the Bank's share of the profit or loss and other comprehensive income of the associate or jointly controlled entity. The Bank also recognizes the changes in the Bank's share of equity of associates or joint ventures.

When the Bank subscribes for additional new shares of the associate or joint ventures at a percentage different from its existing ownership percentage, the resulting carrying amount of the investment differs from the amount of the Bank's proportionate interest in the associate or joint ventures. The Bank records such a difference as an adjustment to investments with the corresponding amount charged or credited to capital surplus. If the Bank's ownership interest is reduced due to the additional subscription of the new shares of the associate or joint ventures, the proportionate amount of the gains or losses previously recognized in other comprehensive income in relation to that associate or joint ventures is reclassified to profit or loss on the same basis as would be required if the investee had directly disposed of the related assets or liabilities. When the adjustment should be debited to capital surplus, but the capital surplus recognized from investments accounted for by the equity method is insufficient, the shortage is debited to retained earnings.

When the Bank's share of losses of an associate or a joint ventures equals or exceeds its interest in that associate or joint ventures, which includes any carrying amount of the investment accounted for by the equity method and long-term interests that, in substance, form part of the Bank's net investment in the associate or joint ventures, the Bank discontinues recognizing its share of further losses. Additional losses and liabilities are recognized only to the extent that the Bank has incurred legal obligations, or constructive obligations, or made payments on behalf of that associate or joint ventures.

Any excess of the cost of acquisition over the Bank's share of the net fair value of the identifiable assets and liabilities of an associate or a joint ventures recognized at the date of acquisition is recognized as goodwill, which is included within the carrying amount of the investment and is not amortized. Any excess of the Bank's share of the net fair value of the identifiable assets and liabilities over the cost of acquisition, after reassessment, is recognized immediately in profit or loss.

The entire carrying amount of the investment (including goodwill) is tested for impairment as a single asset by comparing its recoverable amount with its carrying amount. Any impairment loss recognized is deducted from the carrying amount of the investment. Any reversal of that impairment loss is recognized to the extent that the recoverable amount of the investment subsequently increases.

The Bank discontinues the use of the equity method from the date on which its investment ceases to be an associate and a joint venture. Any retained investment is measured at fair value at that date and the fair value is regarded as its fair value on initial recognition as a financial asset. The difference between the previous carrying amount of the associate and the joint venture attributable to the retained interest and its fair value is included in the determination of the gain or loss on disposal of the associate and the joint venture. The Bank accounts for all amounts previously recognized in other comprehensive income in relation to that associate and the joint venture on the same basis as would be required if that associate had directly disposed of the related assets or liabilities. If an investment in an associate becomes an investment in a joint venture or an investment in a joint venture becomes an investment in an associate, the Bank continues to apply the equity method and does not remeasure the retained interest.

When the Bank transacts with its associate or joint ventures, profits and losses resulting from the transactions with the associate or joint ventures are recognized in the Bank's financial statements only to the extent of interests in the associate or joint ventures that are not related to the Bank.

Investment Properties

Investment properties are properties held to earn rentals and/or for capital appreciation. Investment properties also include land held for a currently undetermined future use.

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are measured at cost less accumulated depreciation and accumulated impairment loss. Depreciation is recognized using the straight-line method.

Any gain or loss arising on derecognition of the property is calculated as the difference between the net disposal proceeds and the carrying amount of the asset and is included in profit or loss in the year in which the property is derecognized.

Properties and Equipment

Properties and equipment are initially measured at cost and subsequently measured at cost less accumulated depreciation and accumulated impairment loss.

Except for freehold land which is not depreciated, the depreciation of properties and equipment is recognized using the straight-line method. Each significant part is depreciated separately. The estimated useful lives, residual values and depreciation methods are reviewed at the end of each reporting period, with the effects of any changes in the estimates accounted for on a prospective basis.

On derecognition of an item of properties and equipment, the difference between the sales proceeds and the carrying amount of the asset is recognized in profit or loss.

Leasing

At the inception of a contract, the Bank assesses whether the contract is, or contains, a lease.

For a contract that contains a lease component and non-lease components, the Bank allocates the consideration in the contract to each component on the basis of the relative stand-alone price and accounts for each component separately.

a. The Bank as lessor

Leases are classified as finance leases whenever the terms of a lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Lease payments (less any lease incentives payable) from operating leases are recognized as income on a straight-line basis over the terms of the relevant leases. Initial direct costs incurred in obtaining operating leases are added to the carrying amounts of the underlying assets and recognized as expenses on a straight-line basis over the lease terms. Lease modification that resulted from a negotiation with a lessee is accounted for as a new lease from the effective date of modification.

Variable lease payments that do not depend on an index or a rate are recognized as income in the periods in which they are incurred.

b. The Bank as lessee

The Bank recognizes right-of-use assets and lease liabilities for all leases at the commencement date of a lease, except for short-term leases and low-value asset leases accounted for applying a recognition exemption where lease payments are recognized as expenses on a straight-line basis over the lease terms.

Right-of-use assets are initially measured at cost, which comprises the initial measurement of lease liabilities adjusted for lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs needed to restore the underlying assets, and less any lease incentives received. Right-of-use assets are subsequently measured at cost less accumulated depreciation and impairment losses and adjusted for any remeasurement of the lease liabilities. Right-of-use assets are presented on a separate line in the balance sheets.

Right-of-use assets are depreciated using the straight-line method from the commencement dates to the earlier of the end of the useful lives of the right-of-use assets or the end of the lease terms. However, if leases transfer ownership of the underlying assets to the Bank by the end of the lease terms or if the costs of right-of-use assets reflect that the Bank will exercise a purchase option, the Bank depreciates the right-of-use assets from the commencement dates to the end of the useful lives of the underlying assets.

Lease liabilities are initially measured at the present value of the lease payments, which comprise fixed payments, in-substance fixed payments, variable lease payments which depend on an index or a rate, residual value guarantees, the exercise price of a purchase option if the Bank is reasonably certain to exercise that option, and payments of penalties for terminating a lease if the lease term reflects such termination, less any lease incentives receivable. The lease payments are discounted using the interest rate implicit in a lease, if that rate can be readily determined. If that rate cannot be readily determined, the Bank uses the lessee's incremental borrowing rate.

Subsequently, lease liabilities are measured at amortized cost using the effective interest method, with interest expense recognized over the lease terms. When there is a change in a lease term, a change in the amounts expected to be payable under a residual value guarantee, a change in the assessment of an option to purchase an underlying asset, or a change in future lease payments resulting from a change in an index or rate used to determine those payments, the Bank remeasures the lease liabilities with a corresponding adjustment to the right-of-use-assets. However, if the carrying amount of the right-of-use assets is reduced to zero, any remaining amount of the remeasurement is recognized in profit or loss. For a lease modification that is not accounted for as a separate lease, the Bank accounts for the remeasurement of the lease liability by (a) decreasing the carrying amount of the right-of-use asset of lease modifications that decreased the scope of the lease, and recognizing in profit or loss any gain or loss on the partial or full termination of the lease; (b) making a corresponding adjustment to the right-of-use asset of all other lease modifications. Lease liabilities are presented on a separate line in the balance sheets.

Variable lease payments that do not depend on an index or a rate are recognized as expenses in the periods in which they are incurred.

For sale and leaseback transactions, if the transfer of an asset satisfies the requirements of IFRS 15 to be accounted for as a sale, the Bank recognizes only the amount of any gain or loss which relates to the rights transferred to the buyer-lessor, and adjusts the off-market terms to measure the sale proceeds at fair value. If the transfer does not satisfy the requirements of IFRS 15 to be accounted for as a sale, it is accounted for as a financing transaction. However, for sale and leaseback transactions, if the transfer of an asset satisfies the requirements of IFRS 15 to be accounted for as a sale, the Bank should defer the amount recognized of which sales price exceeds the carrying amount and allocate to the lease periods. If the lease periods are uncertain, the Bank should recognize the amount within 10 years.

Goodwill

Goodwill (part of intangible assets) from business combination is recorded at acquisition cost and subsequently measured at cost less accumulated impairment.

For the purposes of impairment testing, goodwill is allocated to each of the Bank's cash-generating units or groups of cash-generating units (referred to as cash-generating units (CGU)) that is expected to benefit from the synergies of the combination.

In testing assets for impairment, the Bank compares the carrying amounts of operating segments (CGUs with allocated goodwill) to their recoverable amounts on a yearly basis (or when impairment indicators exist). CGUs with allocated goodwill arise from the current year should be tested for impairment before the end of the year. When the recoverable amount of CGUs is below the carrying amount, an impairment loss should be recognized to reduce first the carrying amount of goodwill of the CGU and then the carrying amounts of other assets of the CGU proportionately. Any impairment loss should be directly recognized as loss in the current year, and subsequent reversal of impairment loss is not allowed.

On disposal of the relevant cash-generating unit, the amount attributable to goodwill is included in the determination of the profit or loss on disposal.

Intangible Assets Other Than Goodwill

Separate acquisition

Intangible assets with finite useful lives that are acquired separately are initially measured at cost and subsequently measured at cost less accumulated amortization and accumulated impairment losses. Amortization is recognized on a straight-line basis. At year-end, the Bank examines its estimates of the useful lives, residual values and amortization method of the assets, and any changes in estimates are accounted for prospectively. Unless the Bank expects to dispose of an intangible asset before the end of its useful life, the residual value of an intangible asset with limited useful life is estimated to be zero. The effect of any changes in estimates accounted for on a prospective basis.

Acquisition as part of a business combination

Intangible asset acquired through business combination is measured at its fair value on the acquisition date, and is recognized separately from goodwill. Subsequent to initial recognition, they are measured on the same basis as intangible assets that are acquired separately.

Derecognition

Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognized in profit or loss when the assets is derecognized.

Impairment of Properties and Equipment, Right-of-use Assets, Investment Properties and Intangible Assets Other Than Goodwill

At the balance sheet date, the Bank reviews the carrying amounts of its properties and equipment, right-of-use assets, investment properties and intangible assets (except goodwill) for any indication of impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss. Corporate assets are allocated to the individual cash-generating units or a reasonable and consistent basis of allocation.

The recoverable amount is the higher of fair value less selling costs or value in use.

If the recoverable amount of an asset or cash-generating unit is estimated to be less than its carrying amount, the carrying amount is reduced to its recoverable amount. If asset impairment loss reverses, the increase in the carrying amount resulting from reversal is credited to earnings. However, loss reversal should not be more than the carrying amount (net of depreciation or amortization) had the impairment loss not been recognized.

Foreclosed Collaterals

Foreclosed collaterals (part of other assets) are recorded at the fair value on recognition and recorded at the lower of cost or net fair value as of the balance sheet dates. Net fair value falling below book value indicates impairment, and impairment loss should be recognized. If the net fair value recovers, the recovery of impairment loss is recognized in gains. For foreclosed collaterals that should have been disposed of in the statutory term, unless the disposal period is prolonged, additional provision for losses should be made and impairment loss should be recognized, as required under a FSC directive.

Provisions

Provisions are the best estimate of the consideration required to settle the present obligation at the balance sheet date, taking into account the risks and uncertainties on the obligation. A provision is measured using the cash flows estimated to settle the present obligation.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Recognition of Revenue

Interest revenue on loans is recorded on an accrual basis. Under the guidance of the FSC, no interest revenue is recognized on loans that are classified as overdue loans. The interest revenue on these loans is recognized upon collection of the loans and credits.

Service fees are recognized when a major part of the earnings process is completed and cash is collected.

Dividend income from investments is recognized when the stockholder's right to receive payment has been established (provided that it is probable that the economic benefits will flow to the Bank and the amount of income can be measured reliably).

Service that results in award credits for customers, under the Bank's award scheme, is accounted for as multiple element revenue transactions and the fair value of the consideration received or receivable is allocated between the service rendered and the award credits granted. The consideration allocated to the award credits is measured by reference to their fair value. Such consideration is not recognized as revenue at the time of the initial sale transaction but is deferred and recognized as revenue when the award credits are redeemed and the Bank's obligations have been fulfilled.

Employee Benefits

Short-term employee benefits

Short-term and non-discounted employee benefits are recognized as expenses in the current year as services are rendered.

Retirement benefits

Payments to defined contribution retirement benefit plans are recognized as an expense when employees have rendered services entitling them to the contributions.

Defined benefit costs (including service cost, net interest and remeasurement) under the defined benefit retirement benefit plans are determined using the projected unit credit method. Service cost and net interest on the net defined benefit liability (asset) are recognized as employee benefits expense in the period they occur. Remeasurement, comprising actuarial gains and losses and the return on plan assets (excluding interest), is recognized in other comprehensive income in the period in which they occur. Remeasurement recognized in other comprehensive income is reflected immediately in retained earnings and will not be reclassified to profit or loss.

Net defined benefit liability (asset) represents the actual deficit (surplus) in the Bank's defined benefit plan. Any surplus resulting from this calculation is limited to the present value of any refunds from the plans or reductions in future contributions to the plans.

Preferential interest deposits for employees

The Bank provides preferential interest deposits to current and retired employees, and these deposits, including payments of the preferential interest deposits, are within certain amounts. The preferential rates for employees' deposits in excess of market rate should be treated as employee benefits.

Under the Guidelines Governing the Preparation of Financial Reports by Public Banks, the Bank should follow the requirement of IAS 19 "Employee Benefits" endorsed by FSC to determine the excess interest on the preferential interest deposits of retired employees by applying an actuarial valuation method when the employees retire. The actuarial assumptions should be in accordance with the requirements set by the authorities.

Termination benefits

A liability for a termination benefit is recognized at the earlier of when the Bank can no longer withdraw the offer of the termination benefit and when the Bank recognizes any related restructuring costs.

Share-based Payment

The Bank's employees subscribed for the reserved shares of Taiwan Cooperative Financial Holding Company, Ltd. (TCFHC) in accordance with the Financial Holding Company Act, and the Bank recognized the fair value of the stock options under salary expenses and under capital surplus for share-based payment on the grant date, i.e., the date when the Bank and its employees made an agreement for the employees to subscribe for TCFHC's shares.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

Income tax payable (recoverable) is based on taxable profit (loss) for the year determined according to the applicable tax laws of each tax jurisdiction.

According to the Income Tax Law of the Republic of China (ROC), an additional tax of unappropriated earnings is provided for as income tax in the year the stockholders approve to retain the earnings.

Adjustments of prior years' tax liabilities are added to or deducted from the current year's tax provision.

Deferred tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences and unused loss carryforwards to the extent that it is probable that taxable profits will be available against which these deductible temporary differences can be used. If the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit, the resulting deferred tax asset or liability is not recognized. In addition, a deferred tax liability is not recognized on taxable temporary difference arising from the initial recognition of goodwill.

Deferred tax liabilities are recognized for taxable temporary differences associated with investments in subsidiaries and associates, and interests in joint ventures, except where the Bank is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognized to the extent that it is probable that there will be sufficient taxable profits against which to utilize the benefits of the temporary differences and these differences are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. A previously unrecognized deferred tax asset is also reviewed at each balance sheet date and recognized to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the assets are realized or the liabilities are settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences based on the manner in which the Bank expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax for the year

Current and deferred taxes are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity, respectively. Where current tax or deferred taxes arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

TCFHC and its subsidiaries elected to file consolidated tax returns for periods starting in 2012. However, since the Bank applied the accounting treatment mentioned in the preceding paragraph to income tax, any distribution of cash payments and receipts among the consolidated group members is recorded as current tax assets or current tax liabilities.

Business Combination

Acquisitions of businesses are accounted for using the acquisition method. Acquisition-related costs are generally recognized as expense as incurred.

Goodwill is measured as the excess of the sum of the consideration transferred and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed.

Business combination involving entities under common control is not accounted for by acquisition method but accounted for at the carrying amounts of the entities. Prior period comparative information in the financial statements is restated as if a business combination involving entities under common control had already occurred in that period.

5. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Bank's accounting policies, which are described in Note 4, the Bank's management is required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered relevant. Actual results may differ from these estimates.

The Bank considers the recent development of the COVID-19 in Taiwan and its economic environment implications when making its critical accounting estimates in cash flow projections, growth rate, discount rate, profitability, etc. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the year in which the estimate is revised if the revision affects only that year or in the year of the revision and future periods if the revision affects both current year and future periods.

Unless stated in other notes, the following are the critical judgments, assumptions and estimation uncertainty estimations that the Bank's management has made in the process of applying the Bank's accounting policies and that have the most significant effect on the amounts recognized in the financial statements:

Impairment Losses on Loans

Estimated impairment losses on the Bank's loans are based on certain assumptions about the percentage of default and default losses. The Bank makes assumptions and selects the input values for the impairment assessment based on prior experience, the current market situation and forward-looking information.

The assessment of impairment loss also takes into consideration the classification of credit assets and the possible impairment losses based on the length of time the loans have become overdue and the status of collection of the collateral. The Bank evaluates the amount of impairment losses based on whether the customer's repayments of principal and interest are overdue and the length of time the payments are overdue, the estimate of value of the collateral and the debtor's financial status. If future actual cash flows are lesser than expected, a material impairment loss may arise.

6. CASH AND CASH EQUIVALENTS

	December 31	
	2022	2021
Cash on hand	\$ 39,871,374	\$ 26,572,973
Notes and checks in clearing	17,918,898	18,523,198
Due from banks	<u>35,216,904</u>	<u>52,879,056</u>
	93,007,176	97,975,227
Less: Allowance for possible losses	<u>21,933</u>	<u>18,891</u>
	<u>\$ 92,985,243</u>	<u>\$ 97,956,336</u>

Reconciliations of cash and cash equivalents between the statements of cash flows and the balance sheets as of December 31, 2022 and 2021 are shown in the statements of cash flows.

7. DUE FROM THE CENTRAL BANK AND CALL LOANS TO OTHER BANKS

	December 31	
	2022	2021
Reserves for deposits - account A	\$ 24,768,535	\$ 53,719,371
Reserves for deposits - account B	102,855,826	91,246,420
Reserves for deposits - community financial institutions	80,004,048	70,963,441
Reserves for deposits - foreign-currency deposits	580,560	527,131
Deposits in the Central Bank	39,200,000	39,200,000
Due from the Central Bank - others	28,486,157	30,615,230
Due from the Central Bank - central government agencies' deposits	2,480,876	2,719,671
Call loans to banks	<u>44,214,617</u>	<u>111,707,315</u>
	<u>\$ 322,590,619</u>	<u>\$ 400,698,579</u>

The deposit reserves are determined monthly at prescribed rates based on the average balances of various types of deposit accounts held by the Bank. The deposit reserves are subject to withdrawal restrictions, but deposit reserve - account A and foreign-currency deposit reserves may be withdrawn anytime.

Under the guideline issued by the Central Bank of the Republic of China (CBC), the Bank should deposit 60 percent of the deposits of central government agencies in the CBC, and the deposits are subject to withdrawal restrictions.

8. FINANCIAL ASSETS AND LIABILITIES AT FAIR VALUE THROUGH PROFIT OR LOSS

	<u>December 31</u>	
	2022	2021
<u>Financial assets mandatorily classified as at fair value through profit or loss</u>		
Commercial paper	\$ 22,942,681	\$ 28,216,785
Corporate bonds	785,554	1,321,091
Investments in equity instruments	988,513	1,496,891
Government bonds	99,524	2,653,138
Beneficial certificates	7,850	24,608
Currency swap contracts	4,781,847	416,916
Forward contracts	110,287	54,683
Futures exchange margins	62,058	175,633
Currency option contracts - buy	20,499	25,098
Cross-currency swap contracts	12,487	4,944
Foreign-currency margin contracts	612	-
Interest rate swap contracts	<u>58,052</u>	<u>-</u>
Financial assets at fair value through profit or loss	<u>\$ 29,869,964</u>	<u>\$ 34,389,787</u>
<u>Held-for-trading financial liabilities</u>		
Currency swap contracts	\$ 2,507,027	\$ 1,681,039
Currency option contracts - sell	20,532	25,434
Forward contracts	43,816	21,201
Interest rate swap contracts	47,247	3,379
Cross-currency swap contracts	2,076	588
Foreign-currency margin contracts	<u>355</u>	<u>1,558</u>
Financial liabilities at fair value through profit or loss	<u>\$ 2,621,053</u>	<u>\$ 1,733,199</u>

As of December 31, 2022 and 2021, financial assets at fair value through profit or loss amounting to \$1,910,904 thousand and \$785,548 thousand, respectively, had been sold under repurchase agreements.

The Bank enters into derivative transactions mainly to accommodate customers' needs and to manage its exposure to adverse changes in exchange rates and interest rates. The Bank's strategy for hedging against risk is to reduce most of the market price risk or cash flow risk.

As of December 31, 2022 and 2021, the contract (notional) amounts of derivative transactions of the Bank were as follows:

	<u>December 31</u>	
	2022	2021
Currency swap contracts	\$ 321,297,779	\$ 310,548,185
Forward contracts	10,763,164	13,963,789
Currency option contracts - sell	2,879,492	3,242,654
Currency option contracts - buy	2,879,492	3,242,654
Interest rate swap contracts	2,551,286	1,700,000
Cross-currency swap contracts	786,552	1,079,949
Foreign-currency margin contracts	62,340	80,360

As of December 31, 2022 and 2021 the open position of futures transactions of the Bank were as follows:

Items	Products	December 31, 2021			
		Open Position		Contract Amounts or Premium Paid (Charged)	Fair Values
		Buy/Sell	Number of Contracts		
Futures contracts	Interest rate futures	Sell	960	\$ 3,470,251	\$ 3,457,152

9. FINANCIAL ASSETS AT FAIR VALUE THROUGH OTHER COMPREHENSIVE INCOME

	December 31	
	2022	2021
<u>Investment in equity instruments at FVTOCI</u>		
Listed shares and emerging market shares	\$ 29,093,520	\$ 43,371,063
Unlisted shares	<u>6,067,533</u>	<u>6,793,262</u>
	<u>35,161,053</u>	<u>50,164,325</u>
<u>Investments in debt instruments at FVTOCI</u>		
Government bonds	221,149,391	199,837,280
Corporate bonds	90,298,964	96,176,533
Bank debentures	70,225,786	79,320,319
Negotiable certificates of deposit	<u>1,218,738</u>	<u>-</u>
	<u>382,892,879</u>	<u>375,334,132</u>
	<u>\$ 418,053,932</u>	<u>\$ 425,498,457</u>

These investments in equity instruments are not held for trading. Instead, they are held for medium to long-term strategic purposes. Accordingly, the management decided to designate these investments in equity instruments as at FVTOCI as they believe that recognizing short-term fluctuations in these investments' fair value in profit or loss would not be consistent with the Bank's strategy of holding these investments for long-term purposes.

For the purpose of risk diversification and profit strategy, the Bank adjusted the investment position to sell part of the equity instruments in the amounts of \$44,325,248 thousand and \$45,190,444 thousand for the years ended December 31, 2022 and 2021, respectively. The accumulated unrealized gain of financial assets at FVTOCI under other equity in the amounts of \$2,109 thousand and \$866,271 thousand have been transferred to retained earnings, respectively.

For the years ended December 31, 2022 and 2021, the Bank recognized unrealized profit or loss on investments in equity instruments at FVTOCI of \$9,395,834 thousand losses and \$5,636,218 thousand gains, respectively.

For the years ended December 31, 2022 and 2021, the Bank recognized unrealized loss on investment in debt instruments at FVTOCI of \$20,687,351 thousand and \$8,277,953 thousand, respectively.

As of December 31, 2022 and 2021, allowance for possible losses of investment in debt instruments at FVTOCI were \$283,338 thousand and \$66,666 thousand, respectively. Impairment loss recognized in profit or loss were \$207,586 thousand losses and \$34,272 thousand gains for 2022 and 2021, respectively.

As of December 31, 2022 and 2021, financial assets at fair value through other comprehensive income amounting to \$7,181,357 thousand and \$5,848,731 thousand, respectively, had been sold under repurchase agreements.

10. INVESTMENTS IN DEBT INSTRUMENTS AT AMORTIZED COST

	<u>December 31</u>	
	<u>2022</u>	<u>2021</u>
Negotiable certificates of deposit in the Central Bank	\$ 537,950,000	\$ 544,320,000
Government bonds	122,209,088	112,178,855
Corporate bonds	44,339,053	43,609,185
Bank debentures	11,704,989	11,149,323
Certificates of deposit	<u>640,849</u>	<u>199,116</u>
	716,843,979	711,456,479
Less: Allowance for possible losses	<u>22,243</u>	<u>19,216</u>
	<u>\$ 716,821,736</u>	<u>\$ 711,437,263</u>

For the years ended December 31, 2022 and 2021, the Bank recognized reversal of impairment loss in profit; the amounts were \$2,565 thousand losses, and \$26,356 thousand gains, respectively.

11. SECURITIES PURCHASED UNDER RESELL AGREEMENTS

Securities acquired for \$149,440 thousand under resell agreements as of December 31, 2022 will subsequently be sold for \$149,563 thousand.

12. RECEIVABLES, NET

	<u>December 31</u>	
	<u>2022</u>	<u>2021</u>
Accrued interest	\$ 9,705,553	\$ 7,267,042
Credit cards	4,886,693	4,543,631

The Bank revalued its properties five times in 1979, 1998, 2007, 2011 and 2012. As December 31, 2022, the reserve for land revaluation increment tax (part of deferred tax liabilities) was \$2,541,779 thousand.

Properties and equipment are depreciated using the straight-line method over their estimated useful lives as follows:

Buildings

Main buildings	50 years
Equipment installed in buildings	5 to 15 years
Machinery and equipment	3 to 10 years
Transportation equipment	5 to 10 years
Other equipment	3 to 20 years
Leasehold improvements	3 to 5 years

In testing assets for impairment, the Bank defined each operating unit or operating segment as a cash-generating unit (CGU). The recoverable amount of a CGU was determined at its value in use for the properties and equipment. The discount rates for the CGUs' value in use were 8.59% and 8.63% as of December 31, 2022 and 2021, respectively.

17. LEASE ARRANGEMENTS

a. Right-of-use assets

	December 31	
	2022	2021
<u>Carrying amount</u>		
Land	\$ 11,887	\$ 13,022
Buildings	1,436,995	1,385,654
Transportation equipment	84,326	74,502
Other equipment	<u>8,650</u>	<u>12,412</u>
	<u>\$ 1,541,858</u>	<u>\$ 1,485,590</u>
	For the Year Ended December 31	
	2022	2021
Depreciation charge for right-of-use assets		
Land	\$ 7,211	\$ 6,738
Buildings	596,485	586,000
Transportation equipment	34,860	29,929
Other equipment	<u>3,762</u>	<u>3,993</u>
	<u>\$ 642,318</u>	<u>\$ 626,660</u>

As of December 31, 2022 and 2021, the additions to right-of-use assets of the Company were \$703,057 thousand and \$514,710 thousand, respectively.

Except for the above listed additions and recognized depreciation expenses, there was no significant sublease or impairment of the Bank's right-of-use assets for the years ended December 31, 2022 and 2021.

b. Lease liabilities

	December 31	
	2022	2021
Carrying amount	<u>\$ 1,517,040</u>	<u>\$ 1,438,619</u>

Range of discount rate for lease liabilities was as follows:

	December 31	
	2022	2021
Land	1.346%-1.627%	1.356%-1.627%
Buildings	1.346%-9.800%	1.346%-9.800%
Transportation equipment	1.935%-9.700%	1.620%-8.880%
Other equipment	2.445%-4.000%	2.445%-4.000%

c. Material lease-in activities

The Bank signed lease agreements on office premises due to operating activities. Rentals are calculated on the basis of leased areas and are receivable monthly, quarterly or semiannually. As of December 31, 2022 and 2021, guarantee deposits on these leases totaled \$137,874 thousand and \$135,283 thousand, respectively.

d. Other lease information

	For the Year Ended December 31	
	2022	2021
Expenses relating to short-term leases	<u>\$ 2,767</u>	<u>\$ 7,072</u>
Expenses relating to variable lease payments not included in the measurement of lease liabilities	<u>\$ 3,588</u>	<u>\$ 3,167</u>

As of December 31, 2022 and 2021, the total cash outflow for leases of the Company was \$693,532 thousand and \$651,155 thousand, respectively.

The Bank's leases of certain land, buildings, transportation equipment and other equipment qualify as short-term leases or low-value asset leases. The Bank has selected to apply the recognition exemption and thus, did not recognize right-of-use assets and lease liabilities for these leases.

(Concluded)

Investment properties (except for land) are depreciated using the straight-line method over their estimated useful lives as follows:

Main buildings	50 years
Equipment installed in buildings	5 to 15 years

As of December 31, 2022 and 2021, the fair value of investment properties was \$22,417,111 thousand and \$21,644,635 thousand, respectively. The fair value was classified in Level 3, the estimated price was determined by internal appraisal personnel using the market approach and inputs according to internal procedures and related regulations.

The revenues generated from the investment properties are summarized as follows:

	<u>For the Year Ended December 31</u>	
	2022	2021
Rental income from investment properties (part of other noninterest gains, net)	\$ 529,923	\$ 528,949
Direct operating expenses for investment properties that generate rental income	<u>(141,552)</u>	<u>(104,460)</u>
	<u>\$ 388,371</u>	<u>\$ 424,489</u>

Lease agreements on investment properties owned by the Bank and rented to others are operating lease. Rentals are calculated on the basis of the leased areas and are receivable monthly, quarterly or semiannually. The lessees have no preemptive rights to buy properties at the end of the lease agreements. As of December 31, 2022 and 2021, guarantee deposits on these leases totaled \$107,400 thousand and \$103,180 thousand, respectively. Minimum future annual rentals are as follows:

	<u>December 31</u>	
	2022	2021
Year 1	\$ 416,227	\$ 447,398
Year 2	330,967	300,706

Computer software with limited useful lives is amortized on a straight-line basis over their useful lives of 5 years.

In testing assets for impairment, the Bank defined each operating unit or operating segment as a cash-generating unit (CGU). The recoverable amount of a CGU was determined at its value in use for the goodwill impairment test. The discount rates for the CGUs' value in use were 8.59% and 8.63% as of December 31, 2022 and 2021, respectively.

Goodwill resulting from merger of the Bank with the Farmers Bank of China was allocated to operating units or operating segment (cash-generating units with allocated goodwill). There was no impairment loss on goodwill as of December 31, 2022 and 2021.

29. EMPLOYEE BENEFITS PLAN

a. Defined contribution plan

The pension plan under the Labor Pension Act (the “Act”) is a defined contribution plan. Based on the Act, the Bank’s monthly contributions to individual pension accounts of employees covered by the defined contribution plan is at 6% of monthly salaries and wages. The funds are deposited in individual labor pension accounts at the Bureau of Labor Insurance.

The Bank recognized expense of \$216,226 thousand and \$194,496 thousand in the statement of comprehensive income in 2022 and 2021, respectively in accordance with the defined contribution plan.

b. Defined benefit plan

The defined benefit plan adopted by the Bank in accordance with the Labor Standards Act is operated by the government. Pension benefits are calculated on the basis of the length of service and average monthly salaries of the six months before retirement. The Bank contributes amounts equal to 15% of total monthly salaries and wages to a pension fund administered by the pension fund monitoring committee. The pension fund is managed by the Bureau of Labor Funds, Ministry of Labor (the “Bureau”); the Bank has no right to influence the investment policy and strategy. Pension contributions are deposited in the Bank of Taiwan in the committee’s name. Before the end of each year, the Bank assesses the balance in the pension fund. If the amount of the balance in the pension fund is inadequate to pay retirement benefits for employees who conform to retirement requirements in the next year, the Bank is required to fund the difference in one appropriation that should be made before the end of March of the next year.

The amounts included in the balance sheets in respect of the Bank's defined benefit plans were as follows:

	December 31	
	2022	2021
Present value of defined benefit obligation	\$ 12,811,748	\$ 13,786,128
Fair value of plan assets	<u>(12,775,826)</u>	<u>(11,840,502)</u>
Net defined benefit liabilities	<u>\$ 35,922</u>	<u>\$ 1,945,626</u>

Movements in net defined benefit liabilities were as follows:

	Present Value of the Defined Benefit Obligation	Fair Value of the Plan Assets	Net Defined Benefit Liability
Balance at January 1, 2021	<u>\$ 14,365,040</u>	<u>\$ (11,591,833)</u>	<u>\$ 2,773,207</u>
Service cost			
Current service cost	435,410	-	435,410
Net interest expense (revenue)	<u>41,940</u>	<u>(34,926)</u>	<u>7,014</u>
Recognized in profit or loss	<u>477,350</u>	<u>(34,926)</u>	<u>442,424</u>
Remeasurement			
Return on plan assets (excluding amounts included in net interest)	-	(170,722)	(170,722)

Actuarial loss - experience adjustments	<u>72,104</u>	<u>-</u>	<u>72,104</u>
Recognized in other comprehensive income	<u>(151,656)</u>	<u>(170,722)</u>	<u>(322,378)</u>
Contributions from the employer	<u>-</u>	<u>(947,627)</u>	<u>(947,627)</u>
Benefits paid	<u>(904,606)</u>	<u>904,606</u>	<u>-</u>
Balance at December 31, 2021	<u>13,786,128</u>	<u>(11,840,502)</u>	<u>1,945,626</u>
Service cost			
Current service cost	405,501	-	405,501
Net interest expense (revenue)	<u>66,806</u>	<u>(59,453)</u>	<u>7,353</u>
Recognized in profit or loss	<u>472,307</u>	<u>(59,453)</u>	<u>412,854</u>
Remeasurement			
Return on plan assets (excluding amounts included in net interest)	-	(940,067)	(940,067)
Actuarial gain - changes in financial assumptions	(1,058,110)	-	(1,058,110)
Actuarial loss - experience adjustments	<u>594,694</u>	<u>-</u>	<u>594,694</u>
Recognized in other comprehensive income	<u>(463,416)</u>	<u>(940,067)</u>	<u>(1,403,483)</u>
Contributions from the employer	<u>-</u>	<u>(919,075)</u>	<u>(919,075)</u>
Benefits paid	<u>(983,271)</u>	<u>983,271</u>	<u>-</u>
Balance at December 31, 2022	<u>\$ 12,811,748</u>	<u>\$ (12,775,826)</u>	<u>\$ 35,922</u>

Through the defined benefit plans under the Labor Standards Act, the Bank is exposed to the following risks:

- 1) Investment risk: The plan assets are invested in domestic and foreign equity and debt securities, bank deposits, etc. The investment is conducted at the discretion of the Bureau or under the mandated management. However, in accordance with relevant regulations, the return generated by plan assets should not be below the interest rate for a 2-year time deposit with local banks.

- 2) Interest risk: A decrease in the government bond interest rate will increase the present value of the defined benefit obligation; however, this will be partially offset by an increase in the return on the plan's debt investments.
- 3) Salary risk: The present value of the defined benefit obligation is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the present value of the defined benefit obligation.

The actuarial valuations of the present value of the defined benefit obligation were carried out by qualified actuaries. The significant assumptions used for the purposes of the actuarial valuations were as follows:

	<u>December 31</u>	
	<u>2022</u>	<u>2021</u>
Discount rate(s)	1.45%	0.50%
Expected rate(s) of salary increase	2.00%	2.00%
Expected rate(s) of return on plan asset	1.45%	0.50%

Assuming a possible reasonable change in each of the significant actuarial assumptions and all other assumptions remaining constant, the present value of the defined benefit obligation will have increased (decreased) as follows:

	<u>December 31</u>	
	<u>2022</u>	<u>2021</u>
Discount rate(s)		
0.25% increase	<u>\$ (257,728)</u>	<u>\$ (303,439)</u>
0.25% decrease	<u>\$ 266,041</u>	<u>\$ 313,944</u>
Expected rate(s) of salary increase		
0.25% increase	<u>\$ 249,728</u>	<u>\$ 293,235</u>
0.25% decrease	<u>\$ (243,317)</u>	<u>\$ (285,157)</u>

The sensitivity analysis presented above shows the effect on the present value of the defined benefit obligations of a change in single assumption while all other assumptions remain unchanged. The sensitivity analysis presented above might not be representative of the actual change in the present value of the defined benefit obligation as it was unlikely that the change in assumptions would occur independently of each other because some of the assumptions might be correlated.

	<u>December 31</u>	
	<u>2022</u>	<u>2021</u>
The expected contributions to the plan for the next year	<u>\$ 980,000</u>	<u>\$ 950,000</u>
The average duration of the defined benefit obligation	8.22 years	9.01 years

c. Employees' preferential deposit plan

The Bank's payment obligations on fixed-amount preferential interest deposits for retired employees and current employees after retirement are in compliance with the Bank's internal rules. Under the Guidelines Governing the Preparation of Financial Reports by Public Banks, the Bank should determine the excess interest from the preferential interest deposits of employees by applying an actuarial valuation method when the employees retire.

The amounts included in the balance sheet arising from the Bank's obligation in the employees' preferential interest deposits plan were as follows:

	December 31	
	2022	2021
Present value of retired employees' preferential interest deposits obligation (part of provisions)	<u>\$ 4,226,023</u>	<u>\$ 4,352,387</u>

The changes in present value of retired employees' preferential interest deposits obligation were as follows:

	For the Year Ended December 31	
	2022	2021
Present value of retired employees' preferential interest deposits obligation, January 1	\$ 4,352,387	\$ 3,971,907
Interest expense	165,350	150,214
Actuarial losses	559,533	1,100,366
Benefits paid	<u>(851,247)</u>	<u>(870,100)</u>
Present value of retired employees' preferential interest deposits obligation, December 31	<u>\$ 4,226,023</u>	<u>\$ 4,352,387</u>

The amounts recognized in profit or loss in employee preferential deposit plans for retired employees in the statement of comprehensive income were as follows:

	For the Year Ended December 31	
	2022	2021
Interest expense	\$ 165,350	\$ 150,214
Actuarial losses	<u>559,533</u>	<u>1,100,366</u>
Excessive interest of retired employees' preferential interest deposits	<u>\$ 724,883</u>	<u>\$ 1,250,580</u>

Under Order No. 10110000850 issued by the Financial Supervisory Commission on March 15, 2012, the actuarial assumptions for calculating the expense for the retired employees' preferential interest deposit benefit are as follows:

	December 31	
	2022	2021
Discount rate	4.00%	4.00%
Return on deposit	2.00%	2.00%
Account balance decrease rate per year	1.00%	1.00%
Rate of probability of change in the preferential deposit system	50.00%	50.00%

Assuming a possible reasonable change in each of the significant actuarial assumptions and all other assumptions remaining constant, the present value of the retired employees' preferential interest deposit benefit obligation would have increased (decreased) as follows:

	December 31	
	2022	2021
Discount rate(s)		
1% increase	<u>\$ (303,145)</u>	<u>\$ (315,627)</u>
1% decrease	<u>\$ 349,341</u>	<u>\$ 363,865</u>
Return on deposit		
1% increase	<u>\$ (1,174,110)</u>	<u>\$ (1,115,448)</u>
1% decrease	<u>\$ 1,174,110</u>	<u>\$ 1,114,858</u>
Account balance decrease rate per year		
1% increase	<u>\$ (320,388)</u>	<u>\$ (379,253)</u>
1% decrease	<u>\$ 364,408</u>	<u>\$ 333,553</u>
Rate of probability of change in the preferential deposit system		
20% increase	<u>\$ (1,690,409)</u>	<u>\$ (1,740,955)</u>
20% decrease	<u>\$ 1,690,409</u>	<u>\$ 1,740,955</u>

The sensitivity analysis presented above shows the effect on the present value of the retired employees' preferential interest deposit benefit obligation of a change in a single assumption while all other assumptions remain unchanged. The sensitivity analysis presented above might not be representative of the actual change in the present value of the retired employees' preferential interest deposit benefit obligation because it was unlikely that the change in assumptions would occur independently of each other because some of the assumptions might be correlated.

30. NET INTEREST

	For the Year Ended December 31	
	2022	2021
Interest revenue		
From discounts and loans	\$ 48,080,331	\$ 37,620,550

	For the Year Ended December 31, 2021				
	Interest Revenue (Expense)	Gain (Loss) on Disposal	Gain (Loss) on Valuation	Dividend Income	Total
Financial assets mandatorily classified as at fair value through profit or loss	\$ 118,972	\$ 3,504,034	\$ (548,625)	\$ 12,056	\$ 3,086,437
Held-for-trading financial liabilities	<u>-</u>	<u>(6,477,440)</u>	<u>2,615,058</u>	<u>-</u>	<u>(3,862,382)</u>
	<u>\$ 118,972</u>	<u>\$ (2,973,406)</u>	<u>\$ 2,066,433</u>	<u>\$ 12,056</u>	<u>\$ (775,945)</u>

33. REALISED GAIN ON FINANCIAL ASSETS AT FAIR VALUE THROUGH OTHER COMPREHENSIVE INCOME

	For the Year Ended December 31	
	2022	2021
Dividends revenue on investments in equity instruments at FVTOCI	\$ 3,604,606	\$ 3,048,502
Derecognition of unrealized gains (losses) on investments in debt instruments at FVTOCI	<u>33,037</u>	<u>1,365,099</u>
	<u>\$ 3,637,643</u>	<u>\$ 4,413,601</u>

For the years ended December 31, 2022 and 2021, dividends revenue related to derecognized investments were \$1,523,581 thousand and \$1,137,611 thousand, respectively, and dividends revenue related to investments held on December 31, 2022 and 2021 were \$2,081,025 thousand and \$1,910,891 thousand, respectively.

34. EMPLOYEE BENEFITS, DEPRECIATION AND AMORTIZATION EXPENSES

a. Employee benefits expenses

	For the Year Ended December 31	
	2022	2021
Salaries	\$ 8,732,168	\$ 8,624,954
Incentives	3,033,653	3,406,197
Excessive interest from preferential interest deposits	1,146,734	1,682,401
Post-employment benefits, termination benefits and compensation	659,600	661,763
Overtime	432,485	420,002
Others	<u>2,096,174</u>	<u>1,923,456</u>
	<u>\$ 16,100,814</u>	<u>\$ 16,718,773</u>

Under the Articles, the Bank will distribute employees' compensation at percentages from 1% to 8% of its annual profit (pretax income which exclude compensation of employees). However, the actual appropriation of the bonus should be made only from the annual net income less any accumulated deficit. For the years ended December 31, 2022 and 2021, the compensation of employees was \$1,163,868 thousand and \$1,345,534 thousand, respectively, based on the Articles.

Material differences between such estimated amounts and the amounts resolved by the board of directors on or before the annual financial statements are authorized for issue are adjusted in the year the compensation were recognized. If there is a change in the resolved amounts after the annual financial statements are authorized for issue, the differences are recorded as a change in accounting estimate.

The appropriations of employees' compensation for 2021 and 2020 resolved by the board of directors on March 14, 2022 and March 22, 2021, respectively, were as follows:

	For the Year Ended December 31	
	2021	2020
Employees' compensation - cash	\$ 1,345,534	\$ 952,839

There was no difference between the amounts of the employees' compensation resolved by the board of directors and the amount recognized in the financial statements.

The appropriation of employees' compensation of the Company for 2022 is subject to the approval of the board of directors.

Information on the employees' compensation resolved by the Bank's board of directors is available at the Market Observation Post System website of the Taiwan Stock Exchange (<https://emops.twse.com.tw>).

b. Depreciation and amortization expenses

	For the Year Ended December 31	
	2022	2021
Depreciation expense	\$ 2,031,906	\$ 1,889,357
Amortization expense	<u>295,814</u>	<u>201,517</u>
	<u>\$ 2,327,720</u>	<u>\$ 2,090,874</u>

35. INCOME TAX

a. Income tax recognized in profit or loss

Main components of income tax expense were as follows:

	For the Year Ended December 31	
	2022	2021
Current tax		
Current year	\$ 2,242,103	\$ 2,359,792
Land value increment tax	-	(18,819)
Prior year's adjustments	<u>(72,374)</u>	<u>(73,151)</u>
	2,169,729	2,267,822
Deferred tax		
Current year	<u>854,464</u>	<u>442,253</u>
Income tax expense recognized in profit or loss	<u>\$ 3,024,193</u>	<u>\$ 2,710,075</u>

A reconciliation of accounting profit and current income tax expenses was as follows:

	For the Year Ended December 31	
	2022	2021
Income before income tax	<u>\$ 22,113,492</u>	<u>\$ 21,583,315</u>
Income tax expense at the statutory rate (20%)	\$ 4,422,698	\$ 4,316,663
Nondeductible expenses in determining taxable income	9,978	6,293
Tax-exempt income	(1,433,590)	(1,665,273)
Land value increment tax	-	(18,819)
Unrecognized deductible temporary differences	(127,990)	165,930

(Continued)

	For the Year Ended December 31	
	2022	2021
Effect of different tax rate of overseas branches operating in other jurisdictions	\$ 225,471	\$ (21,568)
Adjustments for prior year's tax	<u>(72,374)</u>	<u>(73,151)</u>
Income tax expense recognized in profit or loss	<u>\$ 3,024,193</u>	<u>\$ 2,710,075</u> (Concluded)

b. Income tax expense (benefit) recognized in other comprehensive income

	For the Year Ended December 31	
	2022	2021
<u>Deferred tax</u>		
Recognized in other comprehensive income - items that may be reclassified subsequently to profit or loss		
Exchange differences on the translation of financial statements of foreign operations	\$ 947,597	\$ (199,182)
Unrealized valuation gain on financial assets at fair value through other comprehensive income	(351,933)	(119,198)
Share of other comprehensive income of subsidiary accounted for using the equity method	<u>17,946</u>	<u>(40,650)</u>
Income tax expense (benefit) recognized in other comprehensive income	<u>\$ 613,610</u>	<u>\$ (359,030)</u>

c. Current tax assets and liabilities

	December 31	
	2022	2021
Current tax assets		
Tax receivable - consolidated tax return	\$ 2,084,831	\$ 1,990,903
Tax refund receivable	122,542	87,896
Others	<u>41,724</u>	<u>19,661</u>
	<u>\$ 2,249,097</u>	<u>\$ 2,098,460</u>
Current tax liabilities		
Tax payable - consolidated tax return	\$ 352,574	\$ 680,951
Tax payable	427,418	650,638
Tax payable - land value increment tax	-	34,717
Others	<u>425</u>	<u>371</u>
	<u>\$ 780,417</u>	<u>\$ 1,366,677</u>

d. Deferred tax assets and liabilities

Movements in deferred tax assets and liabilities were as follows:

For the year ended December 31, 2022

	Opening Balance	Recognized in Profit or Loss	Recognized in Other Compre- hensive Income	Closing Balance
<u>Deferred tax assets</u>				
Temporary differences				
Financial instruments at fair value through profit or loss	\$ 264,125	\$ (264,125)	\$ -	\$ -
Financial assets at fair value through other comprehensive income	-	-	295,968	295,968
Properties and equipment	7,894	(644)	-	7,250
Payable for annual leave	100,512	(571)	-	99,941
Employee's preferential interest deposits obligation	820,920	(25,273)	-	795,647

	<u>December 31</u>	
	2022	2021
Deductible temporary differences	<u>\$ 573,399</u>	<u>\$ 1,994,792</u>

- f. The income tax returns of the Bank through 2017 had been examined by the tax authorities.
- g. The Bank had recognized the tax effects of the difference of tax credit of \$44,775 thousand and \$73,125 thousand in 2022 and 2021, respectively, according to the result of 2013, 2016 and 2017 income tax return examination and 2021 income tax examination.

36. EARNINGS PER SHARE

The numerators and denominators used in calculating earnings per share were as follows:

	Net Income (Numerator)	Shares (Denominator in Thousands)	Earnings Per Share (NT\$)
<u>For the year ended December 31, 2022</u>			
Basic earnings per share	<u>\$ 19,089,299</u>	<u>11,007,530</u>	<u>\$ 1.73</u>
<u>For the year ended December 31, 2021</u>			
Basic earnings per share	<u>\$ 18,873,240</u>	<u>11,007,530</u>	<u>\$ 1.71</u>

The weighted-average number of shares outstanding for EPS calculation has been retroactively adjusted to reflect the effects of the stock dividends distributed in the year following earning appropriation.

	2021	
	Before Adjusted Retrospectively	After Adjusted Retrospectively
Basic earnings per share (NT\$)	<u>\$ 1.76</u>	<u>\$ 1.71</u>

37. EQUITY

a. Capital stock

Common stocks

	December 31

Number of shares authorized (in thousands)	<u>12,000,000</u>	<u>12,000,000</u>
Authorized capital	<u>\$ 120,000,000</u>	<u>\$ 120,000,000</u>
Number of shares issued and fully paid (in thousands)	<u>11,007,530</u>	<u>10,733,930</u>
Common stocks issued	<u>\$ 110,075,300</u>	<u>\$ 107,339,300</u>
Common stocks issued		
Public	\$ 76,369,806	\$ 74,471,580
Private	<u>33,705,494</u>	<u>32,867,720</u>
	<u>\$ 110,075,300</u>	<u>\$ 107,339,300</u>

Fully paid common stocks, which have a par value of \$10, carry one vote per share and carry a right to dividends.

On May 19, 2021, the Bank's board of directors resolved to increase its capital by issuing 283,200 thousand shares amounting to \$2,832,000 thousand which included the 2020 earning. The issuance was approved by the FSC and MOEA.

On May 23, 2022, the Bank's board of directors resolved to increase its capital by issuing 273,600 thousand shares amounting to \$2,736,000 thousand which included the 2021 earnings. The issuance was approved by the FSC and MOEA.

b. Capital surplus

Under related regulations, capital surplus may be used to offset a deficit. Capital surplus arising from the issuance of shares in excess of par value (including additional paid-in capital from the issuance of common shares and capital surplus from mergers and treasury stock transactions) and donations may be distributed as cash dividends or transferred to common stock on the basis of the percentage of shares held by the stockholders. Any capital surplus transferred to common stock should be within a certain percentage prescribed by law.

Under related regulations, the capital surplus from equity investments under the equity method cannot be distributed for any purpose.

c. Special reserve

Under the FSC guidelines, the Bank reclassified to the special reserve \$165,255 thousand, the sum of trading loss reserve and reserve for loss on branch of purchase commitments, which were in place until December 31, 2010. The reclassified special reserve is unavailable to be used unless: (1) offset a deficit or (2) when the special reserve reaches 50% of the Bank's paid-in capital, 50% of the excess may be used to issue new capital or (3) the FSC has approved that excess may be reversed to unappropriated earnings when special reserve has exceeded the Bank's paid-in capital.

As of December 31, 2022, the special reserve from equity investments under the equity method was \$14,944 thousand.

For the first-time adoption of IFRSs, the Bank should appropriate to a special reserve an amount that was the same as those of unrealized revaluation increment and cumulative translation differences (gains) transferred to retained earnings as a result of the Bank's use of exemptions under IFRS 1. However, on the date of transitions to IFRSs, if the increase in retained earnings that resulted from all IFRSs adjustments is not enough for this appropriation, only the increase in retained earnings that resulted from all IFRSs adjustments will be appropriated to special reserve. The special reserve appropriated as above may be reversed in proportion to the usage, disposal or reclassification of the related assets and thereafter distributed. The special reserve appropriated for the first-time adoption of IFRSs may be used to offset deficits in subsequent years. No appropriation of earnings shall be made until any shortage of the aforementioned special reserve is appropriated in subsequent years if the Bank has earnings and the original need to appropriate a special reserve is not eliminated.

The increase in retained earnings that resulted from all IFRSs adjustments was not enough for this appropriation; therefore, the Bank appropriated to the special reserve an amount of \$1,132,019 thousand on January 1, 2013, the increase in retained earnings that resulted from all IFRSs adjustments on transitions to IFRSs.

Information regarding the above special reserve appropriated or reversed on elimination of the original need to appropriate a special reserve was as follows:

	<u>For the Year Ended December 31</u>	
	2022	2021
Balance on January 1	\$ 1,014,245	\$ 1,037,012
Reversed on elimination of the original need to appropriate a special reserve:		
Disposal of properties and equipment	<u> -</u>	<u> (22,767)</u>
Balance on December 31	<u><u>\$ 1,014,245</u></u>	<u><u>\$ 1,014,245</u></u>

d. Appropriation of earnings

From the annual net income less any deficit, an amount equal to 30% thereof should be appropriated as legal reserve and a certain amount, depending on regulations and operating needs, as special reserve. The remaining net income and unappropriated earnings of prior years may be distributed as dividends to shareholders or retained according to the distribution plan to be proposed by the board of directors and submitted to the shareholders' meeting for approval. Unless otherwise restricted by related regulations, the cash dividends must be 10% or above of the total dividends and bonus distributed. If the cash dividend per share is less than NT\$0.1, the cash dividend will not be distributed unless the distribution is resolved in the stockholders' meetings.

If the legal reserve reaches the amount of paid-in capital or the Bank is sound in both its finance and business operations and have set aside a legal reserve in compliance with the Company Law, the legal reserve is not subject to the limitation of 30% set under the Banking Law and related regulations.

Under related regulations, a special reserve is appropriated from the balance of the retained earnings at an amount from the net income and unappropriated earnings that is equal to the debit balance of accounts in the stockholders' equity section. The special reserve should be appropriated from the prior years' unappropriated earnings to the extent of the debit balance accumulated from prior years, and such special reserve should not be appropriated. If there is difference between appropriation of special reserve and net amount of deduction in other stockholder's equity, the Bank should appropriate on additional amount of special reserve in the first-time adoption of IFRSs. Afterwards, if there is any reversal in of the deduction in other stockholder's equity, the Bank is allowed to appropriating retained earnings from the reversal amount.

Under the Company Law, legal reserve should be appropriated until the reserve equals the Bank's paid-in capital. This reserve should only be used to offset a deficit. When the reserve exceeds 25% of the Bank's paid-in capital, the excess may be used to issue new shares or distribute cash dividends.

The appropriations from the earnings of 2021 and 2020 were approved in the stockholders' meetings on May 23, 2022 and May 19, 2021, respectively. The appropriations and dividends per share were as follows:

	Appropriation of Earnings		Dividends Per Share (NT\$)	
	2021	2020	2021	2020
Legal reserve	\$ 6,025,396	\$ 4,404,495		
Cash dividends	11,324,000	7,446,000	\$ 1.054972	\$ 0.712486
Stock dividends	2,736,000	2,832,000	0.254893	0.270986

Information on the appropriation of earnings or deficit offsetting can be accessed through the Market Observation Post System website of the Taiwan Stock Exchange (<https://mops.twse.com.tw>).

38. RELATED-PARTY TRANSACTIONS

Taiwan Cooperative Financial Holding Co., Ltd. is the ultimate parent of the Bank, and the Ministry of Finance is the major government stockholder. Based on IAS 24 "Related Party Disclosures", the Company's transactions with government-related parties are exempt from disclosure requirements. In addition to those mentioned in other notes, the related-party transactions are summarized as follows:

a. Related parties

Note 1: The highest balance is the largest sum in the year of all daily accounts for each type.

Note 2: A portion of consumer loans was guaranteed by real estate.

Terms of other transactions with related parties were similar to those for third parties, except for the more favorable interest rate for managers' savings within a prescribed limit.

c. Salaries, bonuses and remunerations to main management

	<u>For the Year Ended December 31</u>	
	<u>2022</u>	<u>2021</u>
Salaries and other short-term employment benefits	\$ 163,209	\$ 154,182
Post-employment benefits	8,068	8,119
Interest arising from the employees' preferential rate in excess of normal rates	<u>3,679</u>	<u>3,868</u>
	<u>\$ 174,956</u>	<u>\$ 166,169</u>

39. PLEDGED ASSETS

- a. In addition to those mentioned in other notes, the face values of the pledged bonds and certificates of deposit are summarized as follows:

	December 31	
	2022	2021
Collaterals for call loans of foreign currency	\$ 40,000,000	\$ 40,000,000
Collaterals for day-term overdraft	30,000,000	30,000,000
Collaterals for overdraft of domestic U.S. dollar settlement	11,000,000	11,000,000
Collaterals for overdraft of domestic RMB settlement	-	1,302,300
Guarantee deposits for provisional collateral seizure for loan defaults and others	995,200	908,000
Collaterals for overdraft of domestic JPY settlement	500,000	500,000
Overseas branches' capital adequate reserve	518,682	443,902
Guarantee deposits for the trust business compensation reserve	330,000	290,000
Guarantee deposits for bills finance business	50,000	50,000
Guarantee deposits for securities operation	50,000	50,000
Collaterals for overseas branch U.S. dollar settlement	42,585	15,210
Collaterals for overseas branch KHR settlement	1,493	2,432
Overseas branches' guarantee deposits for operation	6,145	5,531
Guarantee deposits for the reaccommodations by CBC	<u>-</u>	<u>30,000,000</u>
	<u>\$ 83,494,105</u>	<u>\$ 114,567,375</u>

To comply with the Central Bank of the Republic of China's (CBC) Interbank Funds Transfer and Settlement System for real-time gross settlement (RTGS), the Bank provided certificates of deposit as collateral for day-term overdraft (part of due from the Central Bank and call loans to other banks). The pledged amount may be adjusted anytime, and the unused overdraft amount at the end of a day can also be treated as the Bank's liquidity reserve.

- b. To expand their capital sourcing and enhance their liquidity position, the Bank's Seattle Branch, Los Angeles Branch, and New York Branch obtained access privileges at the Discount Window Account of the Federal Reserve Bank. For this access, the three branches pledged the following assets:

(In Thousands of U.S. Dollars)

Date	Loan	Collateral Value
December 31, 2022	<u>\$ 436,267</u>	<u>\$ 361,914</u>
December 31, 2021	<u>\$ 316,643</u>	<u>\$ 236,422</u>

- c. As of December 31, 2021, the Bank had pledged \$75,000,000 thousand, as deposit reserve account B in accordance with the Central Bank's project financing regulations in response to the epidemic.
- d. As of December 31, 2022 and 2021, due to the KHR loans borrowed from the National Bank of Cambodia, the Bank provided US\$27,927 thousand and US\$69,904 thousand, respectively, of its Phnom Penh Branch's due from the Central Bank as collateral to the National Bank of Cambodia in accordance with the relevant regulations.

40. SIGNIFICANT CONTINGENT LIABILITIES AND UNRECOGNIZED COMMITMENTS

In addition to those mentioned in other notes, the significant commitments were as follows:

- a. As of December 31, 2022, the Bank's outstanding major construction and procurement contracts were \$741,195 thousand, of which \$541,347 thousand was still unpaid.
- b. According to the joint venture contract signed with BNP Paribas Assurance (BNPPA), the Bank signed the tri-party agreement with BNP Paribas Cardif TCB Life Insurance Co., Ltd. (BPCTLI) and Cooperative Insurance Brokers Co., Ltd. (CIB) on April 13, 2010, which identified BPCTLI as the sole supplier of life insurance products for the Bank and CIB, also applying the Bank's marketing channels to sell life insurance products. Since the Bank merged with the CIB on June 24, 2016, the Bank signed a two-party agreement with BPCTLI on March 30, 2018 to replace the original tri-party agreement, the rights and obligations of the CIB were assumed by the Bank.

41. FINANCIAL INSTRUMENTS

- a. Fair values of financial instruments that are not measured at fair value

	December 31			
	2022		2021	
	Carrying Amount	Estimated Fair Value	Carrying Amount	Estimated Fair Value
<u>Financial assets</u>				
Investments in debt instruments at amortized cost	\$ 716,821,736	\$ 712,115,862	\$ 711,437,263	\$ 713,516,109
<u>Financial liabilities</u>				
Bank debentures	60,290,000	61,597,225	62,100,000	63,142,171
<u>Fair value hierarchy as at December 31, 2022</u>				
	Total	Level 1	Level 2	Level 3
<u>Financial assets</u>				
Investments in debt instruments at amortized cost	\$ 712,115,862	\$ -	\$ 712,115,862	\$ -
<u>Financial liabilities</u>				
Bank debentures	61,597,225	-	61,597,225	-

Fair value hierarchy as at December 31, 2021

	Total	Level 1	Level 2	Level 3
<u>Financial assets</u>				
Investments in debt instruments at amortized cost	\$ 713,516,109	\$ 6,207,618	\$ 707,308,491	\$ -
<u>Financial liabilities</u>				
Bank debentures	63,142,171	-	63,142,171	-

In addition to those listed above, the management consider other financial instruments which are not measured at fair value close to their fair value.

- b. The valuation techniques and assumptions the Bank uses for determining fair values are as follows:

The fair values of financial instruments traded on active markets are based on quoted market prices. However, in many instances where there are no quoted market prices for the Bank's various financial instruments, fair values are based on estimates using other financial data and appropriate valuation methodologies. The financial data obtained by the Bank for making estimations and assumptions for financial instrument valuation is consistent with those used by other market participants to price financial instruments. Fair values of forward contracts, currency swap contracts, foreign-currency margin contracts, cross-currency swap contracts and interest rate swap contracts are calculated using the discounted cash flow method, unless the fair values are provided by counterparties. Fair values of option contracts are based on estimates using the Black Scholes pricing model.

The Bank estimates the fair value of each forward contract on the basis of the swap points quoted by Refinitiv on each settlement date. Fair values of interest rate swap contracts and cross-currency swap contracts are calculated using the Bloomberg information system, unless the fair values are provided by counterparties. The calculation of the fair value of each option contract is based on the mid-price (the average of bid and ask prices) quoted by Refinitiv and applied consistently.

For debt instruments with no active market, if there are theoretical prices from the Taipei Exchange (an over-the-counter securities exchange) on the balance sheet date, they are used as the basis for evaluating the fair value of debt instruments with no active market. Otherwise, the latest trade prices and quoted prices by major markets are used. The fair values of bank debentures are recorded as follows: (a) debentures with no maturity dates - at book values; (b) debentures with floating interest rates - at theoretical prices quoted by the Taipei Exchange; and (c) debentures with fixed interest rates - at estimates reached using the discounted cash flow method. The discount rates used were between 1.3207% and 1.6703%, between 0.4605% and 0.6491% as of December 31, 2022 and 2021, respectively, and were comparable with interest rates for loans with similar terms and characteristics.

Evaluation technique and input of fair value measurement at Level 3

The Bank adopts the market approach for domestic unlisted equity investment, and selects similar industries with the target company. The main business model is similar. The products and scales are close to the comparable listed companies. The fair value estimation is based on the information of the listed company, or the price-book ratio (P/B) of the industry to which the target is evaluated is estimated as the multiplier of the fair value estimate. The significant unobservable input used is discount for lack of marketability. A decrease in discount for lack of marketability used in isolation would result in increases in fair value.

The ranges for the discount for lack of marketability used in the assessment of fair value based on the market approach on December 31, 2022 and 2021 are as follows:

	<u>December 31</u>	
	2022	2021
Discount for lack of marketability	10%-30%	10%-30%

With other input values remaining and a change in discount for lack of marketability input value to reflect reasonable assumptions, the amount of fair value of investment in equity instruments will increase (decrease) as follows:

	<u>December 31</u>	
	2022	2021
Discount for lack of marketability		
Increase 10%	<u>\$ (917,845)</u>	<u>\$ (1,022,928)</u>
Decrease 10%	<u>\$ 917,845</u>	<u>\$ 1,022,928</u>

- c. The hierarchies of the financial instruments measured at fair value on a recurring basis as of December 31, 2022 and 2021 were as follows:

1) Fair value hierarchy

Financial Instrument Measured at Fair Value	<u>December 31, 2022</u>			
	Total	Level 1	Level 2	Level 3
<u>Non-derivative financial instruments</u>				
<u>Assets</u>				
Financial assets at FVTPL				
Equity instruments	\$ 988,513	\$ 477,967	\$ -	\$ 510,546
Debt instruments	885,078	-	885,078	-
Others	22,950,531	7,850	22,942,681	-
Financial assets at fair value through other comprehensive income				
Equity instruments	35,161,053	29,093,520	-	6,067,533
Debt instruments	381,674,141	7,457,149	374,216,992	-
Others	1,218,738	-	1,218,738	-
<u>Derivative financial instruments</u>				
<u>Assets</u>				
Financial assets at FVTPL	5,045,842	62,058	4,983,784	-
<u>Liabilities</u>				
Financial liabilities at FVTPL	(2,621,053)	-	(2,621,053)	-

Financial Instrument Measured at Fair Value	December 31, 2021			
	Total	Level 1	Level 2	Level 3
<u>Non-derivative financial instruments</u>				
<u>Assets</u>				
Financial assets at FVTPL				
Equity instruments	\$ 1,496,891	\$ 972,275	\$ -	\$ 524,616
Debt instruments	3,974,229	296,649	3,677,580	-
Others	28,241,393	24,608	28,216,785	-
Financial assets at fair value through other comprehensive income				
Equity instruments	50,164,325	43,371,063	-	6,793,262
Debt instruments	375,334,132	21,190,937	354,143,195	-
<u>Derivative financial instruments</u>				
<u>Assets</u>				
Financial assets at FVTPL	677,274	175,633	501,641	-
<u>Liabilities</u>				
Financial liabilities at FVTPL	(1,733,199)	-	(1,733,199)	-

Some of the debt instruments held by the Bank in 2022 were determined to be non-active bond instruments with market price information and liquidity, and the amount was transferred from tier 1 to tier 2. The evaluation is based on price information that can be observed in addition to open quotes in the active market.

2) Reconciliation for financial assets based on the fair value measurement of Level 3

Financial Assets	Financial assets at FVTPL	Investment in Equity Instruments at FVTOCI	Total
Balance at January 1, 2022	\$ 524,616	\$ 6,793,262	\$ 7,317,878
Recognized in profit or loss (included in gains on financial assets and liabilities at FVTPL)	(18,270)	-	(18,270)
Recognized in other comprehensive income (included in unrealized valuation gain or loss on investment in equity instruments at FVTOCI)	-	(877,814)	(877,814)
Purchases	25,200	152,085	177,285
Disposal	(21,000)	-	(21,000)
Balance at December 31, 2022	<u>\$ 510,546</u>	<u>\$ 6,067,533</u>	<u>\$ 6,578,079</u>
Balance at January 1, 2021	\$ 530,066	\$ 5,980,870	\$ 6,510,936
Recognized in profit or loss (included in gains on financial assets and liabilities at FVTPL)	30,550	-	30,550
Recognized in other comprehensive income (included in unrealized valuation gain or loss on investment in equity instruments at FVTOCI)	-	812,392	812,392
Disposal	(36,000)	-	(36,000)
Balance at December 31, 2021	<u>\$ 524,616</u>	<u>\$ 6,793,262</u>	<u>\$ 7,317,878</u>

The change in unrealized gains or loss for the year ended December 31, 2022 and 2021 included in profit or loss for assets held at December 31, 2022 and 2021 was \$14,568 thousand losses and \$34,140 thousand gains, respectively.

d. Information on financial risk management

1) Risk management

The objective of risk management is to develop a sound risk management mechanism, and on the basis of the risk tolerance level and the expected return level, pursue the maximum value of stockholders' investments. The main risks faced by the Bank include the business credit risk in- and off-balance-sheet, market risks (including interest, exchange, equity security, and commodity risks) and liquidity risk.

The Bank has risk management policies and risk monitoring procedures, which have been reviewed and approved by the Board and are used to effectively identify, measure, monitor and control credit, market, and operating and liquidity risks.

The Board, the highest decision-making unit for the risk management, takes charge of approving the risk management policy and system and building the risk management culture. It also takes ultimate responsibility for overall risk management.

Under the risk management decision approved by the Board, the risk management committee takes charge of and reviews all the Bank's risk management implementation, capital adequacy assessment, and risk exposure management. It also communicates and the inter-departmental risk management issues and coordinates issue handling and continually monitor the execution of risk management procedures.

The risk management department is responsible for planning and designing the risk management system, deliberating capital allocation, setting up the instruments for risk measurement and capital provision, and monitoring risk control. This department also regularly prepares reports for submission to senior management, the risk management committee and the Board.

Under the business management regulation and risk policy, the business supervising unit manages and oversees each business unit toward proper risk management and carries out risk review and control. In addition, the Audit Department evaluates each audit units' risks to determine the audit focus, scope, measurement, procedures and frequency, and establishes the relevance between the assessment result and the audit frequency, and enhances the effectiveness of audit and assists the Bank to improve internal control and business development.

2) Credit risk

a) Credit risk management policy

Credit risk refers to a borrower, a financial instrument issuer or a transaction counterparty undergoing financial difficulty or other adverse situations (such as a dispute between the borrower and its business partner), which could result in loss due to breach of contract. Credit risk can come from on- and off-balance-sheet items. On-balance sheet items are mainly lending, due from bank and call loans to other banks, security investment and derivatives. Off-balance sheet items are mainly guarantees, acceptance, letters of credit and loan commitments.

The risk management policy, which is founded on the basic principles of safety, liquidity, profitability, welfare and growth, is implemented by the credit risk management division toward the cultivation of a risk management culture. All on- and off-balance sheet transactions are should be detailed analyzed in detail to identify existing and potential credit risk. Based on TCB's business characteristics and the principle of risk diversification, risk status is analyzed and evaluated, centralized limits are set, and a risk monitoring and alert mechanism has been developed and operated. For a more effective credit risk evaluation, an internal rating system has been created to enhance the ability to quantify risk.

The Bank's main business items that are measured and managed for credit risks are as follows:

i. Loans business (including loan commitment and guarantees)

Credit assets are classified into five categories. In addition to normal credit assets that are classified as sound assets, the unsound assets are classified, on the basis of the valuation of collaterals and the length of time the payments become overdue, as special mention, substandard, with collectability high doubtful and uncollectable. The Bank also set up policies for the management of doubtful credits and the collection of overdue debts to deal with collection problems.

The Bank applies to its credit business the so-called "5Ps of credit analysis" as the basis for lending approval and evaluation of its counterparties. These 5Ps are: People (know customers' background and their credit status well); purpose (what will the fund be used for); payment (the borrower's ability to repay an obligation when it falls due); protection (The Bank's recourse on repayment defaults); and perspective (how the credit is seen in light of rewards and risks). After a loan is granted, the transaction is reviewed and monitored to ensure the Bank's creditor's rights.

To quantify credit risk, the Bank applies statistical methods using with customers' qualitative data and lending history to develop a rating module for corporate finance and consumer finance. This module is used to create an internal credit rating system for risk evaluation, in which 9 is the base grade of the credit quality of corporate customers, and 9 or 10 on the business segment consumer customers.

The 5P credit analysis and the module rating specifically apply to corporate customers. Micro credits and residential mortgages are assessed by using the credit rating model, and consumer loans are assessed individually for default risks.

ii. Due from and call loans to other banks

The Bank evaluates the credit status of counterparties before closing deals. The Bank grants different limits to the counterparties on the basis of their respective credit ratings as suggested by domestic and foreign credit rating agencies.

iii. Investments in debt instruments and derivatives

The Bank identifies and manages credit risks from debt instruments through the use of external credit ratings of the debt instruments along with the evaluation of credit qualities of bonds, regional conditions and counterparty risks.

The Bank conducts derivative transactions with other banks and sets the credit limits (including lending limits) at their credit rating and the ranking given by the Banker magazine. The credits extended to general customers are monitored in accordance with the related contract terms and conditions and the credit limits for derivatives established through normal credit granting processes.

b) Measurement of expected credit losses

i. The determination of significantly increased credit risk after initial recognition

In order to determine whether the credit risk has increased significantly after initial recognition, The Bank assessed changes in default risks of financial assets over the duration at the balance sheet date. To evaluate changes in default risks, the Bank considered reasonable and verifiable information (including forward-looking information). The major considerations include:

Loans business

i) Quantitative benchmark

Overdue loans: Loans and other credits (including accrued interest) are overdue for at least 30 days less than 90 days.

ii) Qualitative benchmark

- Borrower or its representative suffered from dishonored check due to insufficient funds.
- Borrower or its representative suffered from credit card suspension.
- Owners of credit card have been denied by Taiwan Clearing House (THC).
- Objective evidence shows that the borrower's ability to fulfill obligation has been affected.

Bonds and bills business

i) Quantitative benchmark

Credit rating of bond issuers are not classified as investment grade and downgraded by over two grades, or classified as CCC.

Credit risks are deemed low, if the credit rating of the issuer was classified as investment grade at the issue date and the credit risk did not increase significantly after initial recognition.

ii) Qualitative benchmark

Credit rating of bond issuers are not classified as investment grade and downgraded by no more than two grades, but credit risk increase significantly.

ii. Definition of default and credit loss on financial assets

The Bank defines financial asset default in the same manner as financial asset impairment. If one or more of the following conditions occur, the Bank can conclude that the financial asset has defaulted and the credit is impaired:

Loans business

- i) Loans and other credits (including accrued interest) are overdue for at least 90 days.
- ii) Borrower filed for bankruptcy or reorganization.

- iii) Borrower defaulted on other financial instruments.
- iv) The lender of the borrower, for economic or contractual reasons relating to the borrower's financial difficulties, has granted the borrower concession that the lender would not otherwise consider.
- v) Borrower has been denied by TCH.

Bonds and bills business

- i) Interest or principal of Bonds without payment are overdue for at least 90 days.
- ii) Borrower has indication of impairment such as overdue receivables, doubtful debts, financial crisis, contract condition change due to financial crisis and bankruptcy or reorganization.

The above definition of default is applicable to financial assets that are held by the Bank, and is in line with the definition of internal-management intention. Therefore, it is applied to related impairment evaluation models.

If the conditions that define default and credit loss of financial assets have been corrected and the financial assets have returned to the original state of compliance, the financial assets are no longer recognized as impaired.

iii. Reversal policy

When the Bank is unable to recover financial assets to expectations, they are entirely or partly written off against the allowance amount. Indicators of uncollectible financial assets are as follows:

- i) The debtor's inability to recover all or part of the debts due to dissolution, escape, settlement, bankruptcy or other reasons.
- ii) After collaterals assumed and assets of principal and subordinate debtors have been priced low or after deductions for first-order mortgage have been made, the remaining value of the assets is not enough to pay any obligation; also, if execution cost nears or exceeds the debtor's liability, no gain will be realized.
- iii) The Bank is not responsible for the collaterals assumed and assets of principal and subordinate debtors experiencing low priced auctions with no bidders.
- iv) Overdue loans or collections were made after two years from the settlement date.
- v) Overdue credit card loans and overdue receivables were aged over nine months after the settlement date.

Financial assets that have been written off by the Bank may continue activities in progress, while complying with procedures according to relevant policies.

iv. Measurement of expected credit losses

Loans business

In order to assess the expected credit loss, the Bank will categorize credit assets according to credit risk and industry assessments of borrower, as well as credit risk of the types of collateral.

A loss allowance for the 12-month expected credit losses is required for a financial asset if its credit risk has not increased significantly since initial recognition. A loss allowance for full lifetime expected losses is required for a financial asset if its credit risk has increased significantly since initial recognition.

The Company considers both 12-month and lifetime probability of default (“PD”) of the borrower with the loss given default (“LGD”), multiplying, the exposure at default (“EAD”), as well as the impact of time value, to calculate the 12-month.

Probability of default refers to a possibility that a borrower would default to the contract (please refer to the introduction to “The definition of default and credit loss on financial assets”). Loss given default refers to the ratio of default loss caused by borrower. Probability of default and loss given default for loan business of TCB and its subsidiary are calculated by the adjustment of historical default rate, which is based on historical internal information (e.g. credit loss experience), current observable information and prospective macroeconomics statistics (e.g. monitoring indicator from National Development Association and unemployment rate from Directorate General of Budget, Accounting and Statistics, Executive Yuan).

The Bank estimates the exposure at default according to the aggregate book value. In addition, the estimations of expected credit loss for the 12-month loan period and duration of loan commitment made by the Bank are based on the credit conversion factor (CCF), using the portion of the loan commitment that is expected to be used within 12 months of reporting date and expected duration to calculate expected credit loss and determine the exposure at default.

There is no significant change in the estimation method and assumptions used to calculate expected credit loss as of December 31, 2022.

Bonds and bills business

A loss allowance for the 12-month expected credit losses is required for a financial asset if its credit risk has not increased significantly since initial recognition. A loss allowance for full lifetime expected losses is required for a financial asset if its credit risk has increased significantly since initial recognition.

The Bank measures expected credit loss by calculating the product of loss given default and exposure at default, while taking into account the probability of default of a 12-month period and duration, as well as the effect of changes in currency values.

There is no significant change in the estimation method and assumptions used to calculate expected credit loss as of December 31, 2022.

v. Forward-looking information considerations

Loans business

The Bank has taken into account previous forward-looking information when assessing asset default probability. The Bank analyzes past archives to identify relevant economic factors affecting personal and company asset default probabilities.

According to the Bank's previous forward-looking information, estimations are calculated at the end of the year per year on average. The influence of relevant economic factors and expected credit loss identified by the Bank on December 31, 2021 and 2020 is as follows:

	<u>Probability of Default</u>
Relevant economic factors	Monitoring indicator/unemployment rate

In addition, in order to respond in a timely manner to the obvious changes in trend of the various overall economic indicators as a result of the impact of the COVID-19 pandemic, a new mid-term evaluation mechanism for forward-looking factors has been added to reflect the impact of changes in the economic indicators on the default rate.

Bonds and bills business

The assessment of the increase/decrease in the credit risk is based on the Bank's amortization costs and other comprehensive income measured by fair value, referring to changes in external credit ratings according to the international credit ratings service (Moody's) as a quantitative indicator. Also, the expected credit loss uses external credit ratings and Moody's periodic calculations of default probability and loss given default as references. As international credit ratings services have taken into account forward-looking information in assessing credit ratings, it is also appropriate for the Bank to consider forward-looking information when assessing relevant expected credit loss.

c) Credit risk avoidance or mitigation policy

i. Strengthen collaterals and other credits

The Bank has a series of measures for credit granting to reduce credit risks. One of the measures is to require collaterals from the borrowers. To secure a debt, the Bank manages and assesses the collaterals following the procedures that determine the scope of collateralization and valuation of collaterals and the process of disposition. In credit contracts, the Bank stipulates the security mechanism for debts; the conditions and terms for collaterals; and the terms and conditions of offsetting to state clearly that the Bank reserves the right to reduce the granted quota, to shorten the repayment period, to demand immediate settlement or to offset the debts of the borrowers with their deposits in the Bank in order to reduce the credit risks.

There was no major change in the collateral policy of the Bank on the balance sheet date, and there was no significant change in the overall collateral quality.

The Bank closely monitors the value of collaterals of financial instruments and considers impairment on credit-impaired financial assets. Credit-impaired financial assets and collateral to mitigate potential loss were as follows:

December 31, 2022

	Gross Carrying Amount	Allowance for Possible Losses	Total Exposure Amount (Amortized Cost)	Fair Value of Collateral
<u>Impaired financial assets</u>				
Receivables	\$ 204,286	\$ 95,979	\$ 108,307	\$ -
Discount and loans	34,510,482	3,969,195	30,541,287	64,087,133

December 31, 2021

	Gross Carrying Amount	Allowance for Possible Losses	Total Exposure Amount (Amortized Cost)	Fair Value of Collateral
<u>Impaired financial assets</u>				
Receivables	\$ 155,867	\$ 59,387	\$ 96,480	\$ -
Discount and loans	36,101,322	4,047,940	32,053,382	78,882,813

The total amount of financial assets that have been written off but have recourse action by the Bank in December 31, 2022 and 2021 were \$7,292,399 thousand and \$8,010,636 thousand, respectively.

ii. Credit limit and the control of concentration of credit risk

To avoid the concentration of credit risks, the Bank sets up centralized credit limits for business segments, countries, collaterals, groups, and construction financing. Monthly, or more frequently, as needed, the Bank reviews credit limits, monitor the actual risk-exposure condition and whether the usage rate of limits meets relevant regulations and reports the review results to superior management, risk management committee and the Board periodically. If there is a possibility of breach of the credit limits, the related department or division will apply appropriate procedures to ensure that the credit limits are followed.

Concentration of credit risk exists when counterparties to financial transactions are individuals or groups engaged in similar activities or activities in the same region, which would cause their ability to meet contractual obligations to be similarly affected by changes in economic or other conditions. The profile by group or industry, regions and collaterals of obligations that were 10% or more of total outstanding loans is as follows:

Credit Risk Profile by Group or Industry	December 31			
	2022		2021	
	Amount	%	Amount	%
Natural person	\$ 989,233,524	38	\$ 966,913,755	39
Manufacturing	452,362,367	17	420,742,616	17

iii. Master netting arrangement

The Bank settles most of its transactions at gross amounts. For further reduction of credit risks, settlement netting is used for some counterparties or in some circumstances where the transactions are terminated because of a counterparty's default.

d) Maximum exposures to credit risks

The maximum exposures to credit risks of assets on the consolidated balance sheets without consideration of guarantees or other credit enforcement instruments approximate the assets' carrying amounts.

The maximum exposure of financial instrument to credit risks which was not applicable to impairment is as follows:

	<u>December 31</u>	
	2022	2021
Financial assets at fair value through profit or loss - debt instrument	\$ 885,078	\$ 3,974,229

The maximum exposures of off-balance sheet items to credit risks without consideration of guarantees or other credit enforcement instrument are stated as follows:

	<u>December 31, 2022</u>				
	12-month ECL	Lifetime ECL	Lifetime ECL (Credit-impaired Financial Assets)	Difference of Impairment Loss under "Regulations Governing the Procedures for Banking Institutions to Evaluate Assets and Deal with Non-performing/ Non-accrual Loans"	Total
Maximum exposures to credit risk	\$ 285,093,436	\$ -	\$ 257,008	\$ -	\$ 285,350,444
Allowance for possible losses	(745,652)	-	(23,647)	-	(769,299)
Difference of impairment loss under "Regulations Governing the Procedures for Banking Institutions to Evaluate Assets and Deal with Non-performing/ Non-accrual Loans"	-	-	-	(472,352)	(472,352)
	<u>\$ 284,347,784</u>	<u>\$ -</u>	<u>\$ 233,361</u>	<u>\$ (472,352)</u>	<u>\$ 284,108,793</u>

December 31, 2021					
	12-month ECL	Lifetime ECL	Lifetime ECL (Credit-impaired Financial Assets)	Difference of Impairment Loss under “Regulations Governing the Procedures for Banking Institutions to Evaluate Assets and Deal with Non-performing/ Non-accrual Loans”	Total
Maximum exposures to credit risk	\$ 290,623,006	\$ 27,880	\$ 1,180,336	\$ -	\$ 291,831,222
Allowance for possible losses	(781,399)	(28)	(167,289)	-	(948,716)
Difference of impairment loss under “Regulations Governing the Procedures for Banking Institutions to Evaluate Assets and Deal with Non-performing/ Non-accrual Loans”	-	-	-	(451,407)	(451,407)
	<u>\$ 289,841,607</u>	<u>\$ 27,852</u>	<u>\$ 1,013,047</u>	<u>\$ (451,407)</u>	<u>\$ 290,431,099</u>

The Bank’s management believes its ability to minimize credit risk exposures on off-balance sheet items is mainly due to its rigorous evaluation of credit extended and the periodic reviews of these credits.

Some financial assets held by the Bank, such as cash and cash equivalents, due from the Central Bank and call loans to other banks, call loans to security firms, financial assets at fair value through profit or loss, securities purchased under resell agreements and refundable deposits, are exposed to low credit risks because the counterparties have high credit ratings.

In addition to the above assets, credit quality analysis of other financial assets is as follows:

a) Credit quality analysis of discounts and loans

December 31, 2022					
	Stage 1 12-month ECL	Stage 2 Lifetime ECL	Stage 3 Lifetime ECL	Difference of Impairment Recognized under “Regulations Governing the Procedures for Banking Institutions to Evaluate Assets and Deal with Non-performing/ Non-accrual Loans”	Total

Balance at December 31, 2021	<u>\$ 19,216</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 19,216</u>

3) Market risks

Market risk refers to the risk of losses in positions arising from adverse movements of market prices. It refers to interest rates, exchange rates, equity security prices, commodity prices, etc.

The main market risks that the Bank faces are equity security, interest rates, and exchange rate risks. The market risk position of equity security mainly includes domestic listed and OTC stocks, domestic stock index options and stock market index futures; the position of interest rate mainly includes short-term bills, bonds and interest rate derivative instruments; and the instruments exposed to exchange rate risk mainly include spot contracts and forward contracts and derivatives denominated in foreign currency.

Under the market risk management policies approved by the board of directors, the new Basel Capital Accord and regulations implemented by relevant authorities and in consideration of the Bank's own market risk management system and its overall risk management goals and product features, the Bank has set all types of investment authorization limits and stop-loss rules, regularly reviews the customers' credit status and compiles management information reports to control all types of market risks effectively.

The Bank's market risk management procedures include risk identification, evaluation, and measurement as well as risk monitoring, and reporting. Every units' risk management personnel analyze data on market risk position and evaluate measurement methods, including the statistical basic measurement method, sensitivity analysis, and situational analysis. Monitoring content includes trading processes, collective and individual, of all transaction units and all financial instruments, such as change of position, change of profit and loss, trading pattern, and if trading objects are transacted within the authorized scope and limits.

The Banks's business units and risk management unit have established market risk factors for identifying risk exposure positions and use these factors to measure market risks. The market risk factors refer to the components of financial instruments' position, such as profit and loss and sensitivity to risk, which might be affected by interest rates, exchange rates and equity security market prices.

The Bank's risk management unit reports to management periodically the execution status of measures on market risk management, investment positions, and profit and loss control so that management can fully understand the status of market risk management. The Bank also has cleared reporting procedures and rules for all types of transaction limits and the stop-loss order. If any transaction amount reaches the limit, the stop-loss order is executed immediately; if the stop-loss order is not executed, the transaction unit is required to explain the reasons for non-execution and prepare a response plan for management's approval.

Effect of interest rate benchmark reform

The Bank's non-derivative financial assets are exposed to LIBOR which is subject to interest rate benchmark reform. The Bank has established a LIBOR transition project plan. This transition project is considering risk management policy adjustment, internal procedures modification, information system update, financial instrument valuation model adjustment and related issues of accounting. The Bank has discussed the modification of contracts with the counterparties in the financial instrument transactions and expects to accomplish modification before interest rate transition.

The following table contains details of non-derivative financial instruments held by the Bank at December 31, 2022 which are subject to the reform and have not transitioned to an alternative benchmark interest rate:

	Carrying Amount
Financial assets that reference USD LIBOR	
Financial assets at FVTOCI	\$ 12,109,558
Discounts and loans	<u>72,340,842</u>
	<u>\$ 84,450,400</u>

The Bank applies market risk sensitivity as a risk control instrument. Market risk sensitivity position refers to the change in the value of a position due to a change in a certain market risk factor. Market risk factors include interest rates, exchange rates, and equity security prices. The Bank's position sensitivity exposure trading book contains all types of positions exposed to market risk and the range of change to which sensitivity analysis applied under various pressure scenarios for all types of risk factors.

Assuming all other factors are held constant, the effects of risks within defined change scenarios are shown below:

Main Risk	Change Scenario	December 31, 2022	December 31, 2021
Interest rate risk	Interest rate curve increased 100 basis points	\$ (51,733)	\$ (353,392)
	Interest rate curve fell 100 basis points	53,018	380,457
Exchange rate risk	US\$/NT\$, EUR/NT\$ increased 3%	(486,412)	(167,222)
	US\$/NT\$, EUR/NT\$ fell 3%	486,412	167,222
	Others (RMB, AUD etc.)/NT\$ increased 5%	60,149	372,018
	Others (RMB, AUD etc.)/NT\$ fell 5%	(60,149)	(372,018)
Equity security price risk	Equity security price increased by 15%	72,875	149,215
	Equity security price fell by 15%	(72,875)	(149,215)

Average amount and average interest rate of interest-earning assets and interest-bearing liabilities are as follows:

Average balance is calculated by the daily average balances of interest-earning assets and interest-bearing liabilities.

	December 31			
	2022		2021	
	Average Balance	Average Rate (%)	Average Balance	Average Rate (%)
<u>Interest-earning assets</u>				
Due from banks and other financial assets - due from banks	\$ 50,851,064	1.09	\$ 41,943,488	0.67

4) Liquidity risk

Liquidity risk is inherent in all bank operations and might be affected by specific or general industry and environmental events. These events include credit-related events, mergers or acquisitions, systemic changes and natural disasters. The Bank defines liquidity risk as the inability to realize assets or to obtain financing for meeting obligations when they fall due, resulting in loss.

The liquidity risk management strategy is based on the overall risk management objectives and involves liquidity risk, identification, measurement, monitoring and control to maintain the Bank's appropriate liquidity and ensure adequate funding for meeting liability obligations or for capital growth.

The liquidity risk management procedures involve identification, measurement, monitoring and report of risk. Each business unit should identify the existing liquidity risk in business activities and financial products.

For adequate liquidity for all types of deposits, the Bank follows the relevant regulations issued by the Central Bank to estimate the liquidity reserves and calculates and controls daily the liquidity reserve ratios.

For the Bank's operating liquidity, the fund disbursement unit performs daily cash flow management and monitoring of the payments schedule on the basis of detailed reports by different departments and relevant rules.

The risk management department regularly generates risk reports, which include the liquidity reserve ratios and the maturity analysis of instruments and transactions denominated in major foreign currencies, and submits them to the Asset and Liability Management Committee and the Board as reference for decision making.

The Bank stipulates liquidity risk limits, which are regularly monitored and reviewed by the risk management department. If a liquidity risk limit is exceeded or other exception situations occur, the business supervising unit immediately develops appropriate contingency measures and submits them to the Asset and Liability Management Committee for approval and implementation.

The Bank's contingency measures for business emergency or sudden liquidity crisis are aimed at quick crisis resolution and resumption of normal operations.

The Bank's liquidity reserve ratios were 30.36% and 28.92% in December 2022 and 2021, respectively.

The Bank disclosed the analysis of cash outflows on non-derivative financial liabilities by their residual maturities as of the balance sheet dates. The amounts of cash outflows are based on contractual cash flows, so some amounts may not correspond to those shown in the balance sheets.

Other items of cash outflow on maturity	1,475,898	154	183	965,406	65,679	2,507,320

In the above table, the maturity analysis of deposits and remittances by residual-maturity period was based on the Bank's historical experience. Assuming that all demand deposits as of December 31, 2022 and 2021 must be repaid soon, the capital expenditure will be increased by \$1,973,423,557 thousand and \$1,976,268,781 thousand, respectively, within 30 days these balance sheet dates.

The Bank assesses the maturity dates of contracts to understand the basic elements of all derivative financial instruments shown in the balance sheets. The amounts used in the maturity analyses of derivative financial liabilities are based on contractual cash flows, so some of these amounts may not correspond to the amounts shown in the balance sheets. The maturity analysis of derivative financial liabilities is as follows:

a) Derivative financial liabilities to be settled at net amounts

December 31, 2022	0-30 Days	31-90 Days	91-180 Days	181 Days-1 Year	Over 1 Year	Total

The Bank conducted maturity analysis of off-balance sheet items based on the residual maturities as of the balance sheet dates. For the financial guarantee contracts issued, the maximum amounts of the guarantees are included in the earliest periods that the guarantee obligation might have been required to be fulfilled. The amounts used in the maturity analysis of off-balance sheet items are based on contractual cash flows, so some of these amounts may not correspond to those shown in the balance sheets.

December 31, 2022	0-30 Days	31-90 Days	91-180 Days	181 Days-1 Year	Over 1 Year	Total

e. Transfers of financial assets

Under the Bank operations, most of derecognized financial assets are securities sold under repurchase agreements, and the contractual cash flows have been transferred to others. The Bank has the responsibility to repurchase transferred financial assets at fixed prices, and cannot use, sell and pledge transferred financial assets. However, the Bank is still in the risk exposure of interest rate and credit, so the transferred financial assets cannot be removed entirely. The information on derecognized financial assets and liabilities is as follows:

December 31, 2022					
Financial Assets	Carrying Amount of Transferred Financial Assets	Carrying Amount of Related Financial Liabilities	Fair Value of Transferred Financial Assets	Fair Value of Related Financial Liabilities	Net Position of Fair Value
Financial assets at FVTPL - securities sold under repurchase agreements	\$ 1,910,904	\$ 1,911,075	\$ 1,910,904	\$ 1,911,075	\$ (171)
Financial assets at FVTOCI - securities sold under repurchase agreements	7,181,357	7,867,085	7,181,357	7,867,085	(685,728)

December 31, 2021					
Financial Assets	Carrying Amount of Transferred Financial Assets	Carrying Amount of Related Financial Liabilities	Fair Value of Transferred Financial Assets	Fair Value of Related Financial Liabilities	Net Position of Fair Value
Financial assets at FVTPL - securities sold under repurchase agreements	\$ 785,548	\$ 786,386	\$ 785,548	\$ 786,386	\$ (838)
Financial assets at FVTOCI - securities sold under repurchase agreements	5,848,731	6,309,460	5,848,731	6,309,460	(460,729)

f. Offsetting financial assets and financial liabilities

The Bank is eligible to present in the balance sheet on a net basis certain derivative assets and derivative liabilities pertaining to transactions with counterparties under enforceable master netting arrangements or similar agreements and there is an intention either to make settlements on a net basis or to realize the asset and settle the liability simultaneously. A master netting agreement provides for a single net settlement of all financial instruments covered by the agreement if the counterparty defaults on any contract. Parties may also settle transactions at gross amounts if a single settlement results in cash flows being equivalent to a single net amount.

The tables below present the quantitative information on financial assets and financial liabilities that have been offset in the balance sheets or that are covered by enforceable master netting arrangements or similar agreements.

December 31, 2022

Financial assets	Gross Amounts of Recognized Financial Assets	Gross Amounts of Recognized Financial Liabilities Offset in the Balance Sheet	Net Amounts of Financial Assets Presented in the Balance Sheet	Related Amounts Not Offset in the Balance Sheet		Net Amount
				Financial Instruments	Cash Collateral Pledged	
Resell agreements	\$ 149,440	\$ -	\$ 149,440	\$ (149,590)	\$ -	\$ (150)

Financial Liabilities	Gross Amounts of Recognized Financial Liabilities	Gross Amounts of Recognized Financial Assets Offset in the Balance Sheet	Net Amounts of Financial Liabilities Presented in the Balance Sheet	Related Amounts Not Offset in the Balance Sheet		Net Amount
				Financial Instruments	Cash Collateral Pledged	
Repurchase agreements	\$ 9,778,160	\$ -	\$ 9,778,160	\$ (9,092,261)	\$ -	\$ 685,899

December 31, 2021

Financial Liabilities	Gross Amounts of Recognized Financial Liabilities	Gross Amounts of Recognized Financial Assets Offset in the Balance Sheet	Net Amounts of Financial Liabilities Presented in the Balance Sheet	Related Amounts Not Offset in the Balance Sheet		Net Amount
				Financial Instruments	Cash Collateral Pledged	
Repurchase agreements	\$ 7,095,846	\$ -	\$ 7,095,846	\$ (6,634,279)	\$ -	\$ 461,567

42. CAPITAL MANAGEMENT

According to the authority's regulation for principles of capital adequacy management, the Bank lists all the risks into the capital adequacy evaluation scope. In accordance with the operation plans and budget targets, which approved by the board of directors, also considering the Bank's development strategy, capital adequacy, liabilities ratios, and dividend policy, the Bank proposes capital adequacy evaluation plan, which include stress testing, estimation for each season's capital adequacy ratio, etc. to ensure the capital adequacy ratio can be reached and capital structure is sound.

To monitor capital adequacy, the risk management department regularly reports capital adequacy ratios every month and also quarterly reviews the execution status of and actual operation data variation on the Bank's capital adequacy evaluation plan. When the actual capital adequacy ratio might go lower than target, the Bank immediately reviews the causes, prepares a report and proposes a response strategy to maintain the appropriate capital adequacy levels.

The Banking Law and related regulations require that the Bank maintain the minimum requirement for unconsolidated and consolidated capital adequacy ratios (CAR), including the common equity Tier 1 ratio, Tier 1 capital ratio, and total capital adequacy ratio.

Information on the Bank's CAR is as follows:

(In Thousands of New Taiwan Dollars, %)

Items		Year	December 31, 2022		
			Standalone	Consolidated	
Eligible capital	Common equity		\$ 222,692,768	\$ 222,787,669	
	Other Tier 1 capital		35,690,000	35,690,000	
	Tier 2 capital		35,377,031	35,387,377	
	Eligible capital		293,759,799	293,865,046	
Risk-weighted assets	Credit risk	Standardized approach	1,900,155,470	1,900,983,191	
		Internal ratings based approach	-	-

	Operational risk	Basic indicator approach	-	-	
		Standardized approach/alternative standardized approach	82,818,809	82,944,946	
		Advanced measurement approach	-	-	
	Market risk	Standardized approach	28,717,763	28,705,175	
		Internal model approach	-	-	
	Risk-weighted assets			2,014,107,351	2,015,048,621
	Capital adequacy ratio			14.59	14.58
Ratio of the common equity to risk-weighted assets			11.06	11.06	
Ratio of Tier 1 capital to risk-weighted assets			12.83	12.83	
Ratio of leverage			5.80	5.79	

Items		Year	December 31, 2021		
			Standalone	Consolidated	
Eligible capital	Common equity		\$ 232,029,317	\$ 232,592,819	
	Other Tier 1 capital		18,802,112	19,308,800	
	Tier 2 capital		38,852,045	39,874,668	
	Eligible capital		289,683,474	291,776,287	
Risk-weighted assets	Credit risk	Standardized approach	1,824,632,721	1,825,372,526	
		Internal ratings based approach	-	-	
		Securitization	1,874,928	1,874,928	
	Operational risk	Basic indicator approach	-	-	
		Standardized approach/alternative standardized approach	80,974,300	81,054,682	
		Advanced measurement approach	-	-	
	Market risk	Standardized approach	29,248,663	29,248,675	
		Internal model approach	-	-	
	Risk-weighted assets			1,936,730,612	1,937,550,811
	Capital adequacy ratio			14.96	15.06
Ratio of the common equity to risk-weighted assets			11.98	12.00	
Ratio of Tier 1 capital to risk-weighted assets			12.95	13.00	
Ratio of leverage			5.70	5.71	

Note 1: Eligible capital, risk-weighted assets and exposure measurement are calculated under the "Regulations Governing the Capital Adequacy Ratio of Banks" and the "Explanation of Methods for Calculating the Eligible Capital and Risk-Weighted Assets of Banks."

Note 2: Formulas used were as follows:

- 1) Eligible capital = The common equity + Other Tier 1 capital + Tier 2 capital.
- 2) Risk-weighted assets = Risk-weighted asset for credit risk + Capital requirements for operational risk and market risk x 12.5.
- 3) Capital adequacy ratio = Eligible capital ÷ Risk-weighted assets.
- 4) Ratio of the common equity to risk-weighted assets = Common equity ÷ Risk-weighted assets.
- 5) Ratio of Tier 1 capital to risk-weighted assets = (Common equity + Other Tier 1 capital) ÷ Risk-weighted assets.
- 6) Ratio of leverage = Tier 1 capital ÷ Exposure measurement.

43. ASSET QUALITY, CONCENTRATION OF CREDIT EXTENSIONS, INTEREST RATE SENSITIVITY, PROFITABILITY AND MATURITY ANALYSIS OF ASSETS AND LIABILITIES

Note 1: The list shows rankings by total amount of credit, endorsement or other transactions but excludes government-owned or state-run enterprises. If the borrower is a member of a group enterprise, the total amount of credit, endorsement or other transactions of the entire group enterprise must be listed and disclosed by code and line of industry. The industry of the group enterprise should be presented as the industry of the member firm with the highest risk exposure. The lines of industry should be described in accordance with the Standard Industrial Classification System of the Republic of China published by the Directorate-General of Budget, Accounting and Statistics under the Executive Yuan.

Note 2: Group enterprise refers to a group of corporate entities as defined by Article 6 of “Supplementary Provisions to the Taiwan Stock Exchange Corporation Rules for Review of Securities Listings.”

Note 3: Total amount of credit, endorsement or other transactions is the sum of various loans (including import and export negotiations, discounts, overdrafts, unsecured and secured short-term loans, margin loans receivable, unsecured and secured medium-term loans, unsecured and secured long-term loans and overdue loans), exchange bills negotiated, accounts receivable factored without recourse, acceptances and guarantees.

c. Interest rate sensitivity information

**Interest Rate Sensitivity (New Taiwan Dollars)
December 31, 2022**

(In Thousands of New Taiwan Dollars, %)

Items	1 to 90 Days	91 to 180 Days	181 Days to One Year	Over One Year	Total
Interest rate-sensitive assets	\$ 2,896,684,759	\$ 143,236,552	\$ 35,289,411	\$ 397,744,231	\$ 3,472,954,953

b. Nature of trust business operations under the Trust Law: Note 1.

45. ALLOCATION OF REVENUE, COST AND EXPENSE THAT RESULTED FROM THE SHARING OF RESOURCES BETWEEN TAIWAN COOPERATIVE FINANCIAL HOLDING COMPANY, LTD. AND SUBSIDIARIES

Under cooperation arrangements, the Bank and Taiwan Cooperative Securities (TCS) promoted securities brokerage business together; thus, related revenues received by the Bank were calculated as follows: (a) revenue based on 20% of the net revenue derived from security transactions for three years. (b) related revenues from utilizing some operating sites and equipment by the TCS; and (c) receiving cross-selling service fees of \$2,000 thousand annually.

To promote the credit card business and corporate banking business together, the Bank and TCS signed cooperation arrangements, marketing expenses paid by the Bank were based on the arrangements.

As of December 31, 2022 and 2021, the accrued receivables were \$6,208 thousand and \$8,862 thousand (part of receivables), respectively. The revenues from cross-selling transactions were \$24,772 thousand and \$41,399 thousand (part of other noninterest gains, net) in 2022 and 2021, respectively.

To promote the insurance business together, the Bank and Taiwan Cooperative Securities (TCS) signed cooperation arrangements. The service fees paid by the Bank were based on the arrangements.

As of December 31, 2022 and 2021, the accrued payables were \$6 thousand and \$8 thousand (part of payables). The expenses from cross-selling transactions were \$151 thousand and \$171 thousand (part of other noninterest gains, net) in 2022 and 2021, respectively.

To promote the insurance business together, the Bank and BNP Paribas Cardif TCB Life Insurance Co., Ltd. signed cooperation arrangements. The service fees earned by the Bank were based on the agreed percentage of the premiums from the insurance companies' products sold by the Bank.

As of December 31, 2022 and 2021, the accrued receivables were \$3,239 thousand and \$2,155 thousand, respectively (part of receivables), respectively. The revenues from cross-selling transactions were \$30,638 thousand and \$29,106 thousand (part of service fee income, net) in 2022 and 2021, respectively.

To promote the venture capital business together, the Bank and Taiwan Cooperation Venture Capital Co., Ltd. (TCVC) signed cooperation arrangements, the service fees earned by the Bank were based on the arrangements.

The revenues from cross-selling transactions were both \$20 thousand (part of other noninterest gains, net) in 2022 and 2021.

46. CASH FLOW INFORMATION

a. Non-cash financing activities

Undistributed cash dividends approved by the stockholders in the stockholders' meetings were both \$170,524 thousand as of December 31, 2022 and 2021.

b. Changes in liabilities arising from financing activities

For the year ended December 31, 2022

	Opening Balance	Cash Inflows (Outflows)	Non-cash Changes New Leases	Others	Closing Balance

47. OTHER IMPORTANT MATTERS

Since the outbreak of the COVID-19 pandemic in 2020 which has impacted global industries and economic activities, The Bank will continue to monitor the development of the pandemic, carefully evaluate and actively respond to the impact of the pandemic on the Bank's financial status and operating performance. As of the date of release of these financial statements, the management assessed that this had no significant impact on the Company.

48. ADDITIONAL DISCLOSURES

a. Related information of significant transactions and b. investees:

- 1) Financing provided: The Bank - not applicable; investee company - not applicable.
- 2) Endorsement/guarantee provided: The Bank - not applicable; investee company - not applicable.
- 3) Marketable securities held: The Bank - not applicable; investee company - not applicable.
- 4) Marketable securities acquired or disposed of at costs or prices of at least NT\$300 million or 10% of the paid-in capital (the Bank disclosed its investments acquired or disposed of): None.
- 5) Acquisition of individual real estate at costs of at least NT\$300 million or 10% of the paid-in capital: None.
- 6) Disposal of individual real estates at costs of at least NT\$300 million or 10% of the paid-in capital: None.
- 7) Allowance of service fees to related parties amounting to at least NT\$5 million: None.
- 8) Receivables from related parties amounting to at least NT\$300 million or 10% of the paid-in capital: Table 2 (attached).
- 9) Sale of nonperforming loans: None.
- 10) Financial asset securitization: None.
- 11) Other significant transactions which may affect the decisions of users of financial reports: Note 47.
- 12) Percentage share in investees and related information: Table 3 (attached).
- 13) Derivative transactions: The Bank - Notes 8, 38 and 41 to the financial statements; investee company: None.

c. Investment in Mainland China:

Based on "Regulations Governing Approvals of Banks to Engage in Financial Activities between the Taiwan Area and the Mainland Area," the Bank set up the Suzhou Branch, Tianjin Branch, Fuzhou Branch and Changsha Branch in Mainland China. This investment had been approved by the Financial Supervisory Commission. The 4 branches' information - major operating items, capital stock, the way of investment, investment inflows and outflows, the holding percentage, the investment income or loss, the book value at year-end, the remitted investment profits and the limit on the amount of investment in Mainland China - can be seen in Table 4 (attached).

Amounts of executed contracts on negotiated debts not reported as nonperforming loans (Note 8)		217					316					
Amounts of executed contracts on negotiated debts not reported as nonperforming receivables (Note 8)		1,755					2,663					
Amounts of executed debt-restructuring projects not reported as nonperforming loans (Note 9)		9,742					9,035					
Amounts of executed debt-restructuring projects not reported as nonperforming receivables (Note 9)		47,530					49,199					

Note 1: Nonperforming loans are reported to the authorities and disclosed to the public, as required by the "Regulations Governing the Procedures for Banking Institutions to Evaluate Assets and Deal with Nonperforming/Non-accrued Loans." Nonperforming credit card receivables are reported to the authorities and disclosed to the public, as required by the Banking Bureau's letter dated July 6, 2005 (Ref. No. 0944000378).

Note 2: Ratio of nonperforming loans: Nonperforming loans ÷ Outstanding loan balance.
Ratio of nonperforming receivables: Nonperforming receivables ÷ Outstanding receivable balance.

Note 3: Coverage ratio of loans: Allowance for credit losses for loans ÷ Nonperforming loans.
Coverage ratio of receivables: Allowance for credit losses for receivables ÷ Nonperforming receivables.

Note 4: The mortgage loan is for house purchase or renovation and is fully secured by housing that is purchased (owned) by the borrower, the spouse or the minor children of the borrowers.

Note 5: Based on the Banking Bureau's letter dated December 19, 2005 (Ref. No. 09440010950), small-scale credit loans are unsecured, involve small amounts and exclude credit cards and cash cards.

Note 6: Other consumers banking loans refer to secured or unsecured loans that exclude housing mortgage, cash and credit card, and small-scale credit loans.

(Continued)

Note 7: As required by the Banking Bureau in its letter dated July 19, 2005 (Ref. No. 0945000494), accounts receivable factored without recourse are reported as nonperforming receivables within three months after the factors or insurance companies refuse to indemnify banks for any liabilities on these accounts.

Note 8: Amounts of executed contracts on negotiated debts that are not reported as nonperforming loans or receivables are disclosed to the public in accordance with the Banking Bureau's letter dated April 25, 2006 (Ref. No. 09510001270).

Note 9: Amounts of executed debt-restructuring projects not reported as nonperforming loans or receivables are disclosed to the public in accordance with the Banking Bureau's letter dated September 15, 2008 (Ref. No. 09700318940) and letter dated September 20, 2016 (Ref. No. 10500134790).
